HELLO.

A message from President Gervan Fearon

Welcome to Brock University.

Investing in your education and professional development is one of the most important decisions you will make. At Brock, we are here to support you through the process, and give you an outstanding learning and student experience.

We have all made significant adjustments in the past few months, and when our communities are able to fully reopen, you will not want to have lost time progressing towards your goals. For this reason, Brock has established outstanding courses and student engagement mechanisms, while supporting the well-being of our students, faculty and staff.

This year, as the world has dealt with a level of uncertainty that none of us has ever experienced, one thing that has not changed is the value and importance of a sound education and student success.

Brock is here for you, and for all of our students. Consider academic strength: incoming students get a university that is top-5 in all of Ontario for the number of scholars who have won 3M Teaching Excellence Awards.

When starting their future careers, Brock graduates have an employment rate that's above average for Ontario universities (based on government data two years out from graduation). This success is supported by our experiential and work-integrated learning opportunities. For instance, our co-op students have a remarkable 95 per cent success rate in being hired by their previous employer.

The rich Brock experience leads to your success. With 19,000 students, we are large enough to have world-class facilities and staff, but small enough that our students have an outstanding academic and personal experience with university-community involvement. Even our online programs create a sense of community and explore opportunities for direct engagement at the University as the circumstances evolve throughout the academic year.

With more than 120 undergraduate and graduate programs across seven academic Faculties, you can find your future success in the pages of this Viewbook.

Come and make Brock *your* university.

Sincerely,
Gervan Fearon
President and Vice-Chancellor

Brock University is located on the traditional lands of the Haudenosaunee and Anishinabe peoples and traditional shared hunting and gathering grounds of many nations.

GRADUATE
SUCCESS

BROCK HAS ONE OF THE HIGHEST RATES
OF GRADUATE EMPLOYMENT.

THE BEST STUDENT EXPERIENCE.

STUDENT LIFE

With one of the highest rates of overall student satisfaction in Ontario, you can count on Brock to deliver in all areas of your post-secondary career. You'll experience innovative programming, award-winning professors, state-of-the-art facilities and outstanding service. We'll support your career aspirations, personal well-being and academic success while surrounding you with the "best fans in Ontario" at our numerous events. Your campus life couldn't get any better.

Outstanding career preparation

Brock grads enjoy one of the highest employment rates of any Canadian university. We provide a world-class education with relevant experience to back it up. With one of the best co-op programs in the country, and experiential learning opportunities in every Faculty, you'll graduate prepared to be a leader in your career and in your community.

Supporting student success

We commit millions of dollars annually to help students succeed at Brock. Every qualified student deserves an amazing education, and we want to invest in you. Brock offers one of the most extensive recognition programs in Ontario, with guaranteed scholarships for new students coming from high school with an average of 80 per cent or higher.

Trailblazers in experiential learning

Experience matters. Brock was the first university in Canada to recognize the importance of documenting student experiences — both in and out of the classroom. Students are encouraged to explore their interests while Brock facilitates opportunities to help them maximize their potential. We were innovators in creating the first co-curricular transcript to recognize these accomplishments. Brock also became the first university in Canada to have its Senate formally adopt definitions of experiential education. This allows you to connect classroom learning with practical experience and graduate with the competencies required to begin your career.

Excellent graduate opportunities

Continue to advance your education in one of the best environments for graduate studies. The transdisciplinary nature of our programs allows for outstanding collaborations and progressive approaches to in-demand areas of study. Students and faculty are continually taking on real-world problems and discovering solutions.

TOP 5

STUDENT SATISFACTION IN CANADA

HOME AWAY FROM HOME. **EXPLORE NIAGARA**

Brock is located in the heart of Niagara — an amazing destination to live, study, work and play. We are one of Canada's most diverse regions, with a unique mix of world-famous attractions, natural beauty and amazing history. It is no wonder Niagara's tourism industry is booming, with millions of visitors each year.

Welcome to St. Catharines

Brock's main campus is located atop the Niagara Escarpment in the city of St. Catharines, the largest city in the Niagara region. Our dynamic city attracts world-class sporting events, engaging cultural experiences and major musical talent. You'll enjoy our historic downtown, home to an eclectic mix of trend-setting shops, cafés, restaurants and pubs. The University's central location is also close to the U.S. border and just an hour's drive from Toronto.

The great outdoors

Love the outdoors? There is no better place than Niagara. The region attracts people from around the globe for our four-season appeal and world-renowned natural wonders, such as Niagara Falls. In addition to donning your raincoat next to the thundering waterfalls, you can lace up your hiking boots and explore the Bruce Trail, enjoy a peaceful bike ride along the expansive Welland Canal, or soak up the sun on one of our many picturesque beaches.

A cultural hub

Niagara is rich in history and experiences, with art galleries proudly showcasing local talent, captivating live theatre companies performing classic and new productions, and annual food and wine festivals that celebrate a vibrant culinary scene. The region is also well-equipped to help you settle into your home away from home and hosts a huge selection of boutique retailers as well as Canada's largest open-air outlet mall, the Outlet Collection at Niagara.

BE COMPETITIVE. CO-OP EDUCATION

Preparing for your career

Co-op education at Brock is a combination of integrated career-development coaching and work term opportunities. This will allow you to explore career possibilities, discover your interests, gain new skills and build upon existing competencies, all while establishing key industry contacts in the world of work. The experience will enrich your studies through the application of concepts and skills learned in class and during your work terms while developing long-term workplace efficacy. This invaluable learning opportunity will increase your marketability and provide the competitive advantage you will need to launch your career after graduation. For more details on Co-op Education, visit brocku.ca/ccee/co-op-education

EXPERIENTIAL LEARNING

How do I get experience without a job? How do I get a job without experience? At Brock, you'll get both — along with everything else you'll need to ensure your success. Brock is a leader in experiential education in Canada. A Brock education in undergraduate or graduate studies includes amazing academics and the hands-on experience you'll need to add value to your future career prospects. These opportunities enrich your studies by providing you with practical situations to apply your knowledge and build your skills and resumé. Reflecting on how these pieces fit together is what makes experiential learning so valuable. We offer creative experiential learning opportunities in every program on campus.

Experiential education

Learning comes alive through experiential education. Brock students are able to develop skills, clarify their values, and contribute to their local and global communities. More than 20 different types of experiential opportunities are built into our courses at Brock — from labs and simulations to practicums and internships.

brocku.ca/ccee/experiential-education

Student Experience Record

Your experiences at university will be vast and unique. Through Brock's Student Experience Record, we will help you understand and document what you have done, the skills and competencies you have developed, and the hours you have contributed towards your various experiences. These hours will eventually accumulate to become years of experience on a platform that is both dynamic and shareable with employers. As a student who graduates from Brock, you can demonstrate both the quantity and quality of experience you have gained in order to land a great first job.

brocku.ca/ccee/career-education

Campus to career

Your experiences inside and outside the classroom, combined with your goals, values and interests, will lay the foundation for making informed career decisions and finding success in your job search after graduation. Our team works with you throughout your educational journey to help you understand your skills, connect your experiences to jobs, map your career goals and build your professional network. CareerZone is where you will find our team and all the career and job search supports available to you, year-round. With both a physical and online presence, CareerZone gives you access to appointments, events, workshops, employer sessions and jobs.

brocku.ca/ccee/career-education

Law Plus

Interested in pursuing a career in law and gaining pre-law experience? Law Plus is a competitive, four-year, limited-enrollment program that runs concurrently with your academic studies. The curriculum includes skill-development workshops, volunteer placements, job shadows, observational visits, networking with industry professionals, mentoring, one-on-one career coaching and interview prep for professional school applications. This program will help you develop a competitive edge when applying to professional law programs and employment opportunities.

brocku.ca/lawplus

Med Plus

Planning to attend medical school or pursue a health-related career? Med Plus is a competitive, four-year, limited-enrollment program that runs concurrently with your academic studies. The curriculum includes skill-development workshops, volunteer placements, job shadows, observational visits, networking with industry professionals, mentoring, one-on-one career coaching and interview prep for professional school applications. This program will help you develop a competitive edge when applying to med school and other post-graduate programs and employment opportunities.

brocku.ca/medplus

Talent Bridge

Start with the end in mind by checking out our one-of-a-kind Talent Bridge program; a limited enrollment, three-month job-readiness training program that prepares you for a rapidly changing labour market and empowers you with industry-specific opportunities. With two streams currently available, this program is offered in collaboration with industry partners with a focus on in-demand skills, tailored seminars and networking opportunities.

brocku.ca/ccee/hirebrocku/talent-bridge

MAXIMIZE YOUR POTENTIAL. **GET INVOLVED**

Get the most out of your Brock experience. Your opportunities to grow and develop are not limited to your academic program. Discover possibilities outside of the classroom to explore your passions, develop your leadership skills and expand your knowledge. Get involved in hundreds of clubs, volunteer within the community, travel the globe to learn about other cultures or even launch an entrepreneurial idea. Brock has created options to suit all interests. In and out of the classroom, we'll provide you with transferrable skills that will benefit your studies and prepare you for the career of your choice.

Brock LINC

Brainstorm a new idea, test consumer reactions in a virtual reality lab, or produce a prototype in the Makerspace; all within the Brock LINC, our innovation, entrepreneurship and collaboration hub. The Brock LINC, which stands for Learn, Innovate, Network and Collaborate, is a research, teaching and networking facility where students, researchers or community members can bring innovative ideas to reality, gain experience and experiment with entrepreneurship.

brocku.ca/linc

BUSU

The Brock University Students' Union (BUSU) is the student voice on campus and represents all Brock undergraduate students. Their mission is to enhance the student experience and to help you maximize your time at Brock. BUSU offers many services, operates several businesses, runs events all year long and oversees student clubs. There are a range of opportunities for students to get involved and gain leadership experience through specialized committees, our student Board of Directors, on-campus advocacy efforts and external lobbying to all levels of government.

brockbusu.ca

EXPERIENCE THE WORLD.

Broaden your horizons academically, geographically and culturally. Take part in an international exchange.

BE CREATIVE.

Students have access to 3D printers/scanners, robotics kits and audio/video editing tools in the Makerspace.

WE OFFER

MORE THAN

1,000

**STUDENT JOBS
ON CAMPUS.**

Campus jobs

More than 1,000 on-campus student jobs are available each year. Many departments have opportunities for part-time employment during the academic year (September - April) and full-time employment during the Spring/Summer Term (May - August). We can help you access these opportunities to build your skills and experience, and then we'll work with you to understand and articulate your experience on your resumé and for future interviews.

brocku.ca/ccee/career-education

Clubs

What are you passionate about? With hundreds of clubs at Brock, there's something for everyone. Our clubs reflect our diverse student population and represent many different aspects of campus life. Meet new people with similar interests, contribute to your campus, and gain valuable skills in organization, leadership and networking. Have an interest that's not represented? Start your own club and receive support from the Brock University Students' Union.

brockbusu.ca/involvement/clubs

Experience BU

ExperienceBU is our online student involvement portal and events calendar. It will help you find information about clubs, services, organizations and upcoming events at Brock and in the Niagara region. ExperienceBU includes the Campus-Wide Co-Curriculum (CWC), a unique guide to help you get the most out of your experiences. The CWC is composed of 10 domains that represent the skills that employers increasingly expect from university graduates. Participate in them all to gain a richer, more meaningful Brock experience.

experiencebu.brocku.ca

International experiences

Immerse yourself in the culture, lifestyle and traditions of another country. Add an edge to your Brock degree, become a global citizen and strengthen future job opportunities. Experiences are available on six continents. Full-year, single-semester and short-term programs are available.

brocku.ca/international-services

MAKE IT YOUR OWN. DESIGN YOUR DEGREE

At Brock, we recognize that every student is unique, with your own interests and aspirations. That's why we offer so many ways for you to design your degree, your way. In most of our programs, you'll find options to pursue a concentration or minor, or even to combine different areas of study. You'll receive support from faculty and staff to ensure that you are on the right path to meeting your academic and professional goals.

The icons below will help you to identify opportunities within each program at Brock.

brocku.ca/lawplus

ACCELERATED BACHELOR'S/ MASTER'S PROGRAMS

Unique and exclusive opportunities for students to complete two degrees (bachelor's and master's) within five years with one application.

Hands-on learning

Our commitment to hands-on learning and experience is core to Brock's mission. Opportunities to practically apply what you learn are available in every program of study. Through co-op work terms, internships, practicums, volunteer placements and co-curricular studies, you'll discover your passions, learn valuable skills and graduate ready to take the next step in your career. Learn more on pages 10 to 15, or visit brocku.ca/ccee

Seminars, labs and tutorials

Interaction and hands-on learning are ways of life at Brock. Seminars, labs or tutorials accompany many of our programs. You'll study in small groups to explore lecture material and discuss, analyze, and apply learning to new situations.

Majors, minors, combined degrees and electives

Your major is the specific area of study you choose to focus on within your degree. Combine two areas of study or add a minor for a secondary area of specialization or to add a new dimension to your studies. You may also use any elective credits to explore different areas of interest and to create a degree all your own.

Professional pathways

Planning to pursue professional studies to obtain a degree in an area such as medicine, dentistry, law, optometry, chiropractic or physiotherapy?

Begin your studies at Brock to complete the academic requirements you'll need for admission eligibility. We offer all of the preparatory courses you'll need along with unique opportunities to engage in research at the undergraduate level. Brock grads are highly successful in gaining admission to these programs.

Graduate studies

Studies at the graduate level continue to grow at Brock. With more than 50 programs and an engaging research environment, we attract students from around the world to pursue their master's and doctoral degrees. View all of our options on page 74 or at brocku.ca/graduate-studies

Career opportunities

On the following pages, program listings include small samples of possible career opportunities. Some careers listed may require further professional or graduate studies. A range of career paths are available following each degree. All of our programs will prepare you for lifelong learning.

FACULTY OF **APPLIED HEALTH SCIENCES**

The health of people, families, organizations and communities is a shared and fundamental responsibility.

We are dedicated to the goal of understanding health, broadly defined, in order to help gain, maintain and restore it. In any of our programs, you'll experience a unique blend of theory and practice combined with the kind of professional preparation to take you wherever you want to go in your career.

Child Health

- **Bachelor of Child Health (BCH)**
- **Minor in Gerontology**

This unique four-year program is for individuals who aspire to develop a career working with children in a health-related profession.

We draw on the strengths of the Departments of Health Sciences and Child and Youth Studies to explore child health from a multidisciplinary perspective. Students will gain an understanding of the physical, mental, emotional and social components of child health.

Our practicum in Child Health allows students to gain valuable experience in clinical and/or population-based settings.

Career opportunities

- Child life specialist
- Pediatric nurse
- Educator
- Health promoter
- Pediatric occupational therapist
- Applied behavioural therapist

Community Health

- **Bachelor of Arts (BA) in Community Health**

This three-year program is ideal for students who are interested in acquiring a well-rounded understanding of health and wellness at the individual and societal levels. Students will learn the principles behind health promotion and disease prevention, as well as the major determinants of human health, including social, biological and environmental.

For students with human health-related college diplomas, this program provides an opportunity to update their knowledge or enhance their credentials. A set number of credits may be granted to allow for a more expedient completion of the program.

Career opportunities

- Health inspector
- Health analyst
- Program assistant
- Social worker

Kinesiology

- **Bachelor of Kinesiology (BKin)**
- **BSc in Kinesiology (BScKin)**
- **Minor in Gerontology**

Kinesiology is the scientific study of human movement. You will study issues related to the maintenance, rehabilitation or enhancement of movement and performance.

You may pursue one of the following options:

Our **Bachelor of Kinesiology (BKin)** degree emphasizes the biophysical, behavioural and socio-cultural aspects of kinesiology, including exercise prescription and rehabilitation, fitness programming, nutrition for sport and health, and clinical assessment. This degree will train effective health professionals who will transfer scientific theory into practice.

Our **Bachelor of Science in Kinesiology (BScKin)** degree provides a highly competent science background with an emphasis on research skills and theoretical knowledge. This degree is designed for those who wish to study Kinesiology while concentrating most of their electives in the sciences.

Kinesiology is a regulated health profession under the College of Kinesiologists of Ontario.

A Kinesiology degree from Brock provides graduates with the foundation for other advanced degrees related to human movement and exercise therapy including sport medicine, physiotherapy, occupational therapy, prosthetics/orthotics, osteopathy, chiropractic and other advanced research degrees.

Career opportunities

- Registered kinesiologist
- Paramedic
- Physician
- Chiropractor
- Athletic therapist

Kinesiology – Accelerated

- **Bachelor of Kinesiology (BKin)/Master of Professional Kinesiology (MPK)**

This one-of-a-kind program in Canada is designed for students wanting to work in kinesiology and related health-care professions. Students applying to this program from high school will gain entry to both the four-year undergraduate Bachelor of Kinesiology (BKin) degree and the one-year Master of Professional Kinesiology (MPK) program at Brock University.

Kinesiology is the scientific study of the human body and how it moves. It is a diverse field, and as part of your undergraduate BKin degree, you will study human anatomy and physiology, exercise physiology, neuroscience, biomechanics, psychology and other subjects to understand the role of physical activity in promoting, maintaining, and rehabilitating health and well-being.

The graduate MPK program is designed to train students as practitioners in fields related to physical activity and movement. Building on the BKin degree, the MPK program allows students to take innovative lecture and hands-on lab-based courses in areas such as physiological assessment, ergonomics, athletic training, and lifestyle counselling. Students also take courses on professional development and business to prepare them for the workplace. In addition, students complete three different placements with diverse populations in Brock and community-based settings. The MPK program builds on skills and knowledge developed in the BKin degree to enhance both knowledge and practical competencies.

Students will be trained as leading practitioners and health professionals, transferring scientific theory into practice, with the confidence and ability gained from hands-on experience working with professionals in real-world settings.

Career opportunities

- Registered kinesiologist
- Ergonomics, including workplace assessment and skills analysis
- Fitness and health promotion
- Exercise rehabilitation, including cardiac and cancer rehabilitation, physical or occupational therapy
- Coaching
- Corporate wellness

Medical Sciences

• Bachelor of Science (BSc) in Medical Sciences

This program has been developed for those who want to continue studies in medicine, dentistry, rehabilitation or occupational therapy, among others.

Medical Sciences focuses on the biophysical foundation of human health, with courses in anatomy, biology, physiology and the social sciences. In addition, we offer advanced courses in clinical epidemiology, cardiology, medical microbiology and pharmacology.

Ample opportunities for experiential learning are offered through the Brock-Niagara Centre for Health and Well-Being as well as through multiple community organizations. Learning is enhanced through research opportunities and laboratory experiences in courses such as human immunology, parasitology, pathology and anatomy.

Career opportunities

- Physician
- Dentist
- Optometrist
- Pharmacist
- Health researcher

Nursing

• BSc in Nursing (BScN)

The Department of Nursing offers an Honours Bachelor of Science in Nursing degree. Students may complete the full program at Brock University or study collaboratively with Loyalist College. Students at the Loyalist site will complete the first two years of the four-year program at the Loyalist College campus in Belleville, Ont. After successful completion of the first two years at Loyalist College, they will be admitted to the final two years of the program at Brock.

Our program is founded on clinical practice, with these courses beginning in your first year. Students also gain experience in our state-of-the-art Nursing Learning Resource Centre, where patient simulators are programmed to exhibit the physical responses of patients in various situations, mimicking real clinical and emergency situations in a safe learning environment. You'll acquire the knowledge, skills and attitudes to prepare you for professional nursing practice within the context of a changing health-care system.

As a Brock graduate with a Bachelor of Science in Nursing, you'll be eligible to write the National Council Licensure Examination for Registered Nurses (NCLEX-RN exam).

Career opportunities

- Hospital care
- Public health
- Research
- Policy development
- Administration

Physical Education

• Bachelor of Physical Education (BPhEd)

Brock's Physical Education program is the Faculty's longest-standing program and offers outstanding potential for those interested in physical literacy, human movement, performance and inclusive physical activity education.

Our degree will provide you with a broad understanding of the discipline, with maximum flexibility in course selections. You may choose recommended courses in the following areas: coaching, disability studies, pedagogy, socio-cultural perspectives, and sport injury prevention and care. The program provides activity-based classes as well as opportunities for practical experience through field placements and practica that include both domestic and international settings.

Career opportunities

- Teacher
- Athletic therapist
- Coach
- Personal trainer

Public Health

• Bachelor of Public Health (BPH)

• Minor in Gerontology

As the oldest Bachelor of Public Health degree in Canada, our program provides students with a highly sought-after specialization. The program places an emphasis on disease prevention, health policy, promotion, and administration as well as evidence-based program analytics.

Our program (co-op and non co-op) focuses on individual, population, and global health with an emphasis on health promotion, health administration, health policy, and health programming and evaluation.

Students will learn about all determinants of health. The program also familiarizes them with emerging health issues both locally and globally with courses in health of Canadian society, gerontology, mental health, promotion and administration, quality improvement, epidemiology, and biostatistics.

Abundant opportunities exist within the program for research and experiential learning at locations such as the Roy and Lois Cairns Health and Bioscience Research Complex, Niagara Health hospitals, Niagara Region Public Health, and our one-of-a-kind Interprofessional Education for Quality Improvement Program (I-EQUIP). Visit iequip.ca to learn more.

A co-op option is also available for students to explore career opportunities and to broaden their interests in Public Health.

Career opportunities

- Health promoter/health administrator
- Health and safety manager
- Data analyst
- Mental health counsellor
- Research co-ordinator

Public Health – Accelerated

• Bachelor of Public Health (BPH)/ Master of Public Health (MPH)

This program is the first of its kind in Canada. Students are granted direct entry to both the four-year **Bachelor of Public Health (BPH)** (delivered face-to-face) and the one-year **Master of Public Health (MPH)** (delivered completely online) degree programs, allowing for the completion of two degrees within five years with real career experience.

Furthermore, students may choose to pass on the MPH degree following the completion of the BPH degree to accommodate for changes to their career and/or academic aspirations.

In addition to the benefits of the BPH degree, the MPH program focuses on core competencies in population epidemiology, biostatistics, infection control, emergency preparedness, Indigenous health, health equity, social marketing and communications, e-health, and policy-making.

The MPH program also offers a 32-week practicum for experiential learning and research opportunities that can be completed either in Canada or internationally.

Career opportunities

- Health policy and promotion
- Public health management
- Health systems analyst
- Health case counsellor
- Research co-ordinator

Recreation and Leisure Studies

- **Bachelor of Recreation and Leisure Studies (BRLS)**
- **Degree Pathway for Professionals**
- **Minor in Outdoor Recreation**

Recreation professionals deliver health, social, economic and environmental benefits through leisure services. You may choose one of the following areas of concentration:

Community Recreation studies leisure services in diverse and changing communities, including management, community development and the needs of participants. Career opportunities exist in municipal and non-profit organizations, program development, and facility management with children, youth and seniors.

Outdoor Recreation focuses on leadership in the natural environment. You'll prepare to serve as a wilderness trip leader, facilitate groups in outdoor recreation settings, work in outdoor and experiential education environments, and promote social and environmental change in the world. Activities include lectures, outdoor and experiential activities, and small group work. Career opportunities exist in environmental education, outdoor adventure and leadership, K-12 classroom teaching, wilderness therapy, camp administration, ropes course facilitators and builders, and change makers.

Therapeutic Recreation is focused on the goal of ensuring all individuals, regardless of ability, have access to meaningful leisure in their lives. You'll gain hands-on experience in providing services to marginalized individuals (people with disabilities and illnesses, recent immigrants, people who experience poverty

and older adults), using leisure to improve functional abilities and quality of life. Career opportunities exist in rehabilitation centres, hospitals, mental health centres, long-term care homes, community organizations and private practices.

The **Degree Pathway for Professionals** initiative is intended for experienced professionals in recreation services who wish to complete their undergraduate studies in order to further their careers.

Career opportunities

- Recreation co-ordinator
- Recreation facilities manager
- Recreation therapist
- Inclusion co-ordinator
- Outdoor educator

Sport Management

- **Bachelor of Sport Management (BSM)**

Brock is the only university in Canada granting a specialized Bachelor of Sport Management (BSM) degree. Our program has an outstanding reputation within the sport industry for the quality of our students and graduates.

We offer a cutting-edge program where you'll thrive through academic challenges and experiential learning opportunities. Our focus is on the application of theory, principles and practices of business to the sport industry. Field placements and internships in your third and fourth years offer significant career-building experiences.

We maintain active connections with our Sport Management alumni, enriching our classes with guest lecturers and key networking, internship and employment opportunities.

At graduation, you'll be prepared to be hired directly into the sport industry or to pursue postgraduate studies in the Arts, Business or Law. The range of opportunity extends throughout the private, public and not-for-profit sectors of all sports. Our graduates are employed around the world within the broad business of sport.

Career opportunities

- Manager, strategic partnerships/commercial rights
- AGM/GM/VP/manager major league franchises
- CEO/manager provincial/national sports associations
- Manager, major games/event operations
- Senior client manager/agent sports and entertainment

FACULTY OF EDUCATION

The world needs future-ready educators.

From guiding learners in the digital age to advancing inclusion, equity and justice, a great teacher makes all the difference. That teacher can be you.

If you're driven to help people reach their full potential and want to join a community that is passionate about teaching and learning, come to Brock.

Our programs prepare you to do work that will matter because they are grounded in research and proven in practice. You can personalize your experience and gain a competitive advantage with specialized courses, experiential education opportunities and professional development activities.

Whether working with preschool children, engaged in K-12 teaching, leading adult learners or working in the broader educational industry, our graduates make an impact in every sector of society.

EARN TWO DEGREES AT THE SAME TIME

Our Concurrent Teacher Education programs allow you to earn an Honours Bachelor degree and a Bachelor of Education degree.

Aboriginal Education

- **BEd in Aboriginal Adult Education or Aboriginal Language**
- **Certificate in Aboriginal Adult Education or Aboriginal Language**
- **BEd Primary/Junior (Aboriginal)**
- **Minor in Indigenous Studies**
- **Gidayaamin Indigenous Certificate Program**

The Tecumseh Centre for Aboriginal Research and Education offers several options for those interested in working with Indigenous communities or in an Indigenous teaching environment. The programs incorporate Aboriginal learning preferences and cultural diversity. Our community-based curriculum model relies on qualified local Aboriginal educators to facilitate your educational journey. Courses are offered in a facilitated learning cohort model in locations across the province. A selection of Indigenous Studies courses are offered on campus.

Career opportunities

- Elementary school teacher
- School/community/cultural administrator
- Education/curriculum developer
- Academic advisor
- Museum or gallery educational programmer

Adult Education

- **BEd in Adult Education**
- **Certificate in Adult Education**
- **Minor in Adult Education**

These programs are designed for those working or aspiring to work in adult learning environments including post-secondary contexts and training and development in public and private sectors, such as health care, human resources, business, community services and industry. Specialists and practitioners in these contexts may continue their education with the BEd in Adult Education as a first or subsequent degree, or Certificate in Adult Education, enhancing their knowledge and skills as educators of adults.

Programs are offered on a part-time basis and may be completed entirely online.

Adult Education programs do not lead to an Ontario Certificate of Qualification for the K-12 education sector.

Career opportunities

- Instructors of adults in post-secondary contexts
- Community educators
- Training and development managers in business and industry
- Curriculum writers

Concurrent Teacher Education Primary/Junior (Grades K-6)

- **Bachelor of Arts Child and Youth Studies (Honours)/Bachelor of Education**

In this program, you will study for six years to complete an Honours BA in Child and Youth Studies and a Bachelor of Education (BEd) at the same time. This concurrent degree integrates theoretical and practical knowledge, and includes a unique undergraduate program, which focuses on understanding children, childhood and youth. Opportunities for experiential education begin in your second year — with a required service-learning placement — and continue throughout the program.

Successful graduates will be recommended to the Ontario College of Teachers for an Ontario Certificate of Qualification and Registration.

Career opportunities

- Elementary school teacher
- School administrator
- Tutor
- Education/curriculum developer
- Public/private program instructor/administrator

Concurrent Teacher Education Junior/Intermediate

(Grades 4-10, emphasizing
elementary school)

- **BA Integrated Studies (Honours)/BEd**
- **BA Interactive Arts and Science (Honours)/BEd**
- **BPhEd (Honours)/BEd**
- **BSc Integrated Studies (Honours)/BEd**

Bachelor of Arts Integrated Studies (Honours)/Bachelor of Education:

In this flexible program, you may choose a teachable subject in Dramatic Arts, English (first language), French (second language), Geography, History, Mathematics, Music (vocal), Science — General or Visual Arts. Education-related courses are required throughout the program and experiential education opportunities begin in your second year. Successful completion of this six-year program will result in an Honours BA in Integrated Studies and a Bachelor of Education.

Bachelor of Arts Interactive Arts and Science (Honours)/Bachelor of Education:

Focus on the future as you learn to integrate digital technologies into the classroom. During this six-year program, you'll complete collaborative projects with other students while immersing yourself in interactive media, including makerspaces, augmented/virtual reality, 3D modelling/printing, video games and more. Participate in field experiences to gain practical experience, while learning from school and industry experts. Choose from a teachable subject in Dramatic Arts, English (first language), French (second language), Geography,

History, Mathematics, Music (vocal), Science — General or Visual Arts. Successful completion of this program will result in an Honours BA in Interactive Arts and Science and a Bachelor of Education.

Bachelor of Physical Education

(Honours)/Bachelor of Education: In six years, you'll complete an Honours degree in Physical Education as well as a Bachelor of Education degree. Your teachable subject will be Health and Physical Education, and you will also take courses in Child and Youth Studies and Education. Opportunities for experiential education begin in your second year and continue throughout the program.

Bachelor of Science Integrated Studies (Honours)/Bachelor of Education:

Choose a teachable subject in Geography, Mathematics or Science — General to complete this six-year program. Upon completion, you will simultaneously receive a Bachelor of Science in Integrated Studies and a Bachelor of Education. In addition to science courses, you will also enjoy courses in Child and Youth Studies and Education. Experiential education opportunities begin in second year and will continue throughout the program.

Successful graduates of each program will be recommended to the Ontario College of Teachers for an Ontario Certificate of Qualification and Registration.

Career opportunities

- Elementary or secondary school teacher
- School administrator
- Academic advisor
- Education/curriculum developer
- Public and private program instructor/administrator

Concurrent Teacher Education Intermediate/Senior

(Grades 7-12)

- **BA (Honours)/BEd**
- **BPhEd (Honours)/BEd**
- **BSc (Honours)/BEd**

Bachelor of Arts (Honours)/Bachelor of Education:

Choose from the following for your Honours degree major and first teachable subject: Dramatic Arts, English (first language), French (second language), Geography, History or Visual Arts. You will combine your major with a second teachable area of interest while taking education-related courses throughout your program. This six-year program allows you to focus on both your academic passions and professional interests while completing an Honours Bachelor of Arts degree and a Bachelor of Education degree. Experiential education opportunities begin in second year and continue throughout the program.

Bachelor of Physical Education (Honours)/Bachelor of Education:

If you wish to teach Health and Physical Education at the Intermediate/Senior level, this is the program for you. In six years, you will complete all of the courses required to receive an Honours Bachelor of Physical Education degree as well as a Bachelor of Education degree. You'll combine your major in Physical Education with a second teachable subject of interest and continue to take education-related courses throughout the program. Opportunities for experiential education begin in your second year and continue throughout the program.

Bachelor of Science (Honours)/Bachelor of Education:

You may choose to major in Biological Sciences, Chemistry, Geography, Mathematics or Physics. In six years, you will complete an Honours degree in your major/ first teachable subject, the requirements for a second teachable subject and your Bachelor of Education degree. Opportunities for experiential education will begin in second year and continue throughout the program. You will take Child and Youth Studies and Education courses beginning in the first year of your program.

Choose your second teachable subject area from one of the following:

- Dramatic Arts
- English
- French
- Geography
- History
- Mathematics
- Health and Physical Education
- Science – Biology
- Science – Chemistry
- Science – General
- Science – Physics
- Visual Arts

Successful graduates of each program will be recommended to the Ontario College of Teachers for an Ontario Certificate of Qualification and Registration.

Career opportunities

- Secondary school teacher
- School administrator
- Academic advisor
- Education/curriculum developer
- Museum or gallery educational programmer

Early Childhood Education

• Bachelor of Early Childhood Education (Honours) (BECE)

Students may build on a two-year ECE diploma or equivalent by completing our focused two-and-a-half-year program.

You will enhance your ability to engage in and contribute to the field of early childhood education in meaningful ways and be prepared for further studies or work in the field of care and education for young children.

Graduates of the Bachelor of Early Childhood Education program will be prepared for positions that require a strong foundation in early care and education.

They may also choose to further their education in a graduate studies or teacher education program.

Career opportunities

- Child-care centres
- Family-resource centres
- Full-day early learning environments
- EarlyON Child and Family centres
- Children's support services

Educational Studies

• Minor in Educational Studies

The Minor in Educational Studies is open to all university students to gain insight into the broad field of education and an understanding of how people learn. Through elective and required courses, you'll develop skills and expertise to prepare you for coaching, training, teaching, and the facilitation of learning in a range of environments and roles. The courses that

comprise the minor in educational studies do not lead to a Bachelor of Education degree.

Teacher Education — Consecutive

• Bachelor of Education (BEEd)

This program is for those who have already completed a university degree. The program is four semesters, taken over two academic years, allowing students time to learn, reflect and grow as beginning teachers.

Completion of the program leads to an Ontario Certificate of Qualification and Registration. Programs are offered at two campuses: St. Catharines and the greater Hamilton, Burlington, Oakville corridor (currently in Hamilton).

Teacher Education programs at Brock embrace the integration of theory and practice. Students are placed in partner schools very early in their program. They move through a planned course of study, including in excess of 80 days in Ontario classrooms. With a focus on pedagogy reflective of future-ready learners, Brock teacher candidates may personalize their learning through optional courses and professional development opportunities, and may qualify for an alternative placement experience in their final year.

Instruction in professional practice takes place under the supervision of practicum advisors, practicum instructors and associate teachers who work with teacher candidates in schools.

Primary/Junior program:

Certifies to teach Kindergarten through Grade 6.

LEARN THROUGH EXPERIENCE

Opportunities for hands-on experience prepare you for diverse careers in the field of education.

Junior/Intermediate program:

Certifies to teach Grades 4 through 10, emphasizing elementary school.

Intermediate/Senior program:

Certifies to teach Grades 7 through 12, emphasizing secondary school.

Career opportunities

- Elementary or secondary school teacher
- University liaison officer
- Admissions co-ordinator
- Academic advisor
- Education/curriculum developer

Technological Education

• Bachelor of Education in Technological Education

• Certificate in Education

This program is for those with professional qualifications in a broad-based technology, several years of relevant work experience and a passion to teach secondary students.

The program currently runs out of Brock's Hamilton campus and employs online, on-site and practicum-based courses.

Completion of the program leads to an Ontario Certificate of Qualification and Registration.

Broad-based technologies:

- Communications technology
- Computer technology
- Construction technology
- Green industries
- Hairstyling and aesthetics
- Health care
- Hospitality and tourism
- Manufacturing technology
- Technological design
- Transportation technology

Career opportunities

- Technological education teacher
- Adult and continuing education instructor

GOODMAN SCHOOL OF BUSINESS

Studying business at Brock goes beyond balance sheets and bottom lines. Here, we help develop tomorrow's business leaders, who are ready to think critically, adapt to changing business landscapes and look beyond geographic boundaries.

The Goodman School of Business is committed to providing you with the opportunities you need to succeed, having undergone a tremendous period of growth to enhance the physical space and academic offerings. Accreditation from AACSB, CPA Ontario, CPSA and NCMA ensure you will receive a level of excellence in business education that meets rigorous standards.

You will be able to build a global perspective through Goodman's international partnerships and develop your leadership skills through our many clubs and competitions. We provide hands-on experiences, both inside and outside of the classroom, that will help you launch your career.

Experience success. Get there with Goodman.

Accounting

• Bachelor of Accounting (BAcc)

Accounting at the Goodman School of Business has a national reputation for excellence. Goodman is accredited to the master's level by the Chartered Professional Accountants (CPA) of Ontario under the new national CPA accreditation standards.

If you want a career as a professional accountant, know that our program is designed with the rigorous academic courses and professional orientation the CPA designation demands.

Accounting Co-op at Goodman prepares you to complete the work experience necessary to obtain the CPA designation, including a public accounting licence. Obtaining the CPA designation requires 30 months of professional work experience. Our students work in a wide variety of locations throughout Ontario and acquire 16 to 20 months of work experience prior to graduation. Visit brocku.ca/ccee/co-op-education for more information.

Once you have received your BAcc, in either the co-op or non-co-op program, you will be ready to prepare for the Common Final Exam (CFE) by entering the Professional Education Program (PEP) offered by CPA Canada. If you prefer a faster track, you can choose Goodman's CPA Pathway.

Goodman provides one of the fastest tracks to the CPA designation. When you take our Bachelor of Accounting (BAcc) and Master of Accountancy (MAcc) programs, you'll learn everything you need to proceed to, and be successful on, the Common Final Exam (CFE). The course material covered in the MAcc is identical to the course material covered by the CPA-PEP modules. Visit cpaontario.ca for more information on the CPA-PEP.

Career opportunities

- Professional accountant
- Financial analyst
- Operating fund accountant
- Cost/purchasing analyst
- Commodity tax analyst

Business Administration

• Bachelor of Business Administration (BBA)

• Minors in Business or Management

Our Bachelor of Business Administration (BBA) program combines professionally oriented business courses with studies in Social Sciences, Humanities, and Mathematics and Science. Four credit minors in Business or Management are available to Brock students pursuing degrees in other Faculties.

A combination of case studies, experiential learning, small classroom lectures, group projects and independent work will help you develop key business skills, including oral and written communication skills; ethical, analytical and problem-solving skills; and critical reasoning skills. These skills are in high demand from employers.

You may tailor your degree to meet your personal goals. In your first two years, you'll receive a solid foundation in the functional areas of business along with knowledge of the Canadian and global business environment through a core set of courses.

In your final two years, you'll prepare to meet your professional goals by having the option to focus on one of 10 different areas of concentration: Accounting*, Entrepreneurship, Finance, General Management, Human Resource Management, Information Systems, International Business, Marketing, Operations Management, and Public Administration.

Our Business Administration Co-op students complete work terms with major companies in Canada and abroad. You'll enrich your academic studies by applying the concepts you have learned in class to your work experience. You may sample a variety of work placements to develop a greater awareness of your future career path and interests. Visit brocku.ca/ccee/co-op-education for more information.

Career opportunities

- Marketing manager/social media co-ordinator
- Human resources co-ordinator/recruiter
- Financial analyst
- Business development manager
- Operations manager

*The BBA program (Accounting concentration) provides a broader managerial degree with a more limited focus in accounting. The BBA program meets some, but not all, CPA requirements. The BAcc program is designed for students intending to pursue a professional accounting designation and includes all university courses required by Chartered Professional Accountants (CPA) Ontario.

Business Administration International Double Degree

• BBA Co-op/Degree from partner school

We've partnered with five leading business schools in Europe to offer you the best in global business education. Through Canada's only international double degree program that includes co-op, you will combine your studies in Business at Goodman with an experience at Lancaster University Management School in England, NEOMA Business School in France, EBS Business School in Germany, ESB Reutlingen University in Germany, or Dublin City University in Ireland. No matter which school you choose, your experience will include co-op work terms in both Canada and the respective country.

You'll study both at Brock and the partner school and receive two internationally recognized degrees. This co-op-only program gives you the global perspective that employers want and the work experience to back it up.

England: Lancaster University Management School: Study for two years at the Goodman School of Business and two years at LUMS in England.

France: NEOMA Business School: Study for 2.5 years at the Goodman School of Business and two years at NEOMA Business School in France. You will study in French at NEOMA — French language courses must be completed at Brock in Years 1 and 2.

Germany: EBS Business School: Study for 2.5 years at the Goodman School of Business and 1.5 years at EBS Business School in Germany. You will study in English at EBS; however, you will take German language courses at Brock in Years 1 and 2 so that you are prepared to work in a German work environment.

Germany: ESB Reutlingen University: Study for 2.5 years at the Goodman School of Business and two years at ESB Reutlingen in Germany. At ESB, you will study 50 per cent in German in Year 3 and 100 per cent in German in Year 4. You will study German language in Years 1 and 2 to prepare.

Ireland: Dublin City University: Study for 2.5 years at the Goodman School of Business and two years at Dublin City University in Ireland.

Career opportunities

- Investment banker
- Commercial account manager
- Corporate trainer
- Product marketing manager
- Business process specialist

FACULTY OF HUMANITIES

An education in the Humanities gives you the skills for not just one job, but for any job. Our programs encourage proficiency in writing, speaking, problem-solving, critical thinking, as well as training in research, synthesis and analysis of information. Many of our programs provide hands-on training in practice and performance.

Our varied programs allow you the chance to explore the foundations of the human experience, while gaining the fundamentals for any future endeavours. Research demonstrates that Humanities graduates possess desirable employment traits and are hired at rates equivalent to those in professionally-oriented programs.

Canadian Studies

- **BA in Canadian Studies**
- **Minor in Canadian Studies**

Canadian Studies is offered as a combined major. As a Canadian Studies co-major, you'll confront the intersection of Canada's rich history with culture, cultural policy, politics, economics and geography. Our courses explore Canada from many angles. We take advantage of our geographic position to explore the impact of the border on culture and trade in Canada.

Canadian Studies students are in demand at home and abroad. Here in Canada, your skills are urgently needed to communicate with international businesses, politicians, tourists and more. Your knowledge is sought after in the fields of education, law and the civil service.

Areas of concentration are available in **Canadian Cultural Texts and Practices**, **Canadian Society and Politics**, or **Francophone Canada: Language and Culture**.

Career opportunities

- Civil service
- International business
- Tourism
- Communications
- Journalism

Classics

- **BA in Classics**
- **Minor in Classics**
- **Certificates in Ancient Greek and Latin Language**

Classics presents an integrated study of the worlds of ancient Greece and Rome in order to better understand the origins of many contemporary artistic and literary traditions and social institutions. In Classics, we examine ancient languages, history, art and archaeology in ways that allow you to engage with the ancient world first-hand.

Our extensive experiential opportunities range from language classes to curatorial and archaeological experiences both at Brock and overseas. In the summer, we offer courses on archaeological excavations and study tours in the Mediterranean region to explore ancient art and culture directly.

You may choose to specialize in one of the following areas:

Ancient Art and Archaeology examines the cultures of the ancient Mediterranean from the perspectives of both visual and material culture.

Classical Civilization is an option for those interested in creating their own customized program of study in Classics. Courses in ancient Greek and Latin language are not required.

Greek and Roman Studies combines the study of Greek and Latin language, as well as Greek and Roman history, art, religion and literature-in-translation.

Career opportunities

- Archaeology
- Museum and cultural heritage
- Journalism

- Tourism
- Library and information science

English Language and Literature

- **BA in English Language and Literature**
- **BA in English and Contemporary Culture**
- **BA in English and Creative Writing**
- **BA in Writing, Rhetoric and Discourse Studies**
- **Minors in English Language and Literature or Writing, Rhetoric and Discourse Studies**
- **Certificates in Creative Writing or Rhetoric and Professional Writing**

Our programs combine academic study with unique practical experience in critical thinking and writing. Courses explore literature from Britain, the United States and Canada, as well as works written in English from all over the world.

Our **English Language and Literature** and **English and Contemporary Culture** programs introduce students to a wide range of literary forms, historical periods and theoretical approaches. They provide superb preparation for education and law degrees, careers in public relations and communications, or graduate studies in Library Science and English.

The **English and Creative Writing** program uses lectures and practical workshop courses to examine the material and social contexts of creative writing, and to teach the craft of key literary genres.

The **Writing, Rhetoric and Discourse Studies** program combines practical and theoretical studies with instruction in a

range of writing genres. The program is for students interested in communications, public relations, journalism and professional writing for organizations.

Career opportunities

- Researcher/writer
- Editor
- Journalist
- Public relations/marketing
- Teacher

French Studies

- **BA in French Studies**
- **Minor in French Studies**

We offer courses in French language, translation and linguistics, as well as courses on literature from French-speaking countries around the world. Culture and civilization courses highlight the painting, architecture, music and historical events that appeared along with literary texts throughout the centuries in France. We offer a variety of opportunities to study in a French-speaking milieu, including short-term spring and summer courses in Quebec.

Our state-of-the-art Multimedia Language Learning Centre provides you with audiovisual, web-based and computer-based opportunities for language learning.

Career opportunities

- French teacher
- Translator
- Civil service officer
- Immigration officer
- Business person

Game Design

- **BA in Game Design/Advanced Diploma in Game Development**

Video games are an increasingly important part of contemporary life and entertainment, and Brock's GAME program prepares students to lead and collaborate in the creation of games. You'll design dynamic experiences, create compelling game art, manage the production process and formulate the mechanics that make games work.

GAME is offered concurrently at Brock and Niagara College. The program provides opportunities to explore the game space from every angle. You'll look at the creative and cultural context of games; the history of games, game platforms and design; and production paradigms. You'll also examine core issues that surround games, such as play, agency, narrative, dynamics and immersion.

Intensive production courses are offered in Years 2, 3 and 4 of the program. In these courses, you'll work in collaborative groups to create game components, prototypes and fully realized games.

Career opportunities

- Game designer
- Concept artist
- Asset designer
- 3D modeller
- Game writer

General Humanities

- **BA in General Humanities**

Our BA in General Humanities is designed to allow you to pursue a more flexible selection of courses, with broad exposure to courses from across all of our Faculties. At the same time, the degree provides the opportunity to focus on a particular area of study, with the majority of courses taken in disciplines within the Faculty of Humanities. You also have the option of including up to two minors in this degree.

Completion of the BA General Humanities degree may lead to a wide range of employment options, depending on the specific courses that are chosen.

German

- **Minor in German**

The Minor in German offers courses — from beginner to advanced levels — in which students develop comprehension and writing skills and practice the spoken language. Courses in literature, film, and culture and civilization are also offered, as well as a course designed for students who will participate in exchanges to Germany.

Hispanic and Latin American Studies

- **BA in Hispanic and Latin American Studies**
- **Minor in Hispanic and Latin American Studies**
- **Certificates in Spanish Proficiency or Spanish Proficiency for Native Speakers**

This program is offered as a combined major. It offers a strong focus on Spanish- and Portuguese-speaking cultures. Spanish and Portuguese have become very popular language choices and are increasingly in demand in today's global economy.

You'll develop a comprehensive understanding of these major world regions and have the opportunity to develop your own disciplinary and thematic interests. Our courses integrate lectures with online modules, small group tutorials and opportunities to apply concepts to real-life situations via internships and community outreach.

You may choose to study at the University of Alcalá, Spain during the summer or for a single semester, or explore study abroad programs in Europe or the Americas.

Career opportunities

- Spanish teacher
- Translator
- Government trade policy (NAFTA) analyst
- Immigration officer
- Travel consultant, Central and Latin America

History

- **BA in History**
- **Minor in History**

History is at the heart of every educated citizen. To understand the present and prepare for the future, one must learn about the past. At Brock, History is much more than memorizing facts and dates — it involves exploring changes and continuities in bygone societies, cultures and peoples.

The study of History entails following your interests and curiosities, evaluating and interpreting evidence, as well as formulating logical arguments based on that evidence.

Career opportunities

- Teacher
- Historian/museum curator
- Lawyer
- Public relations officer
- Civil servant

Interactive Arts and Science

- **BA in Interactive Arts and Science**
- **Minor in Interactive Arts and Science**

Explore the world of interactive media, games and new models of content creation and delivery.

You'll complete collaborative project work in interactive media while learning about related concepts and production methods.

Students interested in media design and creation can access courses in visual arts and theatre; those wanting to learn programming can choose options in applied computing; and those interested in the possibilities of narrative can pursue courses in English, film and popular culture. Qualified fourth-year students participate in the program's capstone production course, bringing together design, art, story, interaction and production in a fully developed interactive media product.

IASC students can choose to participate in internships to gain practical experience — learning from industry leaders and using cutting-edge technology in 3D modelling, motion capture, visual effects, live-action video and 3D printing.

Career opportunities

- Multimedia developer
- Instructional designer for multimedia content
- Writer for interactive fiction and games
- Project manager for interactive media
- New media journalist

Programs in the Humanities

**PREPARE STUDENTS
EXCEPTIONALLY WELL
FOR CAREERS IN LAW
OR BUSINESS.**

Italian Studies

- **BA in Italian Studies**
- **Minor in Italian Studies**

This program is offered as a combined major. Develop written and spoken competence in Italian, and discover the rich and vast world of Italian culture. A variety of language courses are offered from beginner to advanced, including translation theory and practice, Italian regionalism and language teaching.

We also offer courses in Italian literature, culture, cinema, art and architecture (some in English). You'll be exposed to great writers, artists and filmmakers, such as Dante, Petrarch, Machiavelli, Pirandello, Eco, Leonardo, Michelangelo, Fellini and Bertolucci.

A summer studies program in Italy is offered for majors and non-majors.

Career opportunities

- Language teacher
- Translator
- Immigration officer
- Travel and tourism
- International relations and business

Medieval and Renaissance Studies

- **BA in Medieval and Renaissance Studies**
- **Minor in Medieval and Renaissance Studies**

This program is offered as a combined major. The focus is on the period from late antiquity to the 17th century. It draws from many different disciplines and emphasizes interrelations among art, architecture, history, literature, music and thought. You'll develop the skills and habits of critical inquiry, analysis, argument and expression.

Course offerings range from the end of the Roman world to Renaissance Italy, from Byzantium to Iceland, and from the reading of Latin literature to the analysis of Chaucer, Dante and Shakespeare, among many others, as well as the music, art and architecture of the period.

Career opportunities

- Archivist/librarian
- Editor
- Teacher
- Lawyer
- Civil servant/diplomat

Philosophy

- **BA in Philosophy**
- **Minor in Philosophy**

Philosophy, defined as the pursuit of wisdom, encompasses the exploration of the nature of reality, consciousness, values, knowledge, reason, argument and evidence. You'll study not only the primary texts of the Western philosophical tradition, but also major texts of Indian and Chinese thought.

You'll learn to be critical, reflective, thoughtful, skeptical, affirmative, knowledgeable, and, of course, wise.

You'll become a decision-maker, well trained for a variety of vocations, including law, public service and policy.

Career opportunities

- Lawyer
- Journalist
- Writer and editor
- Teacher
- Public relations advisor

FACULTY OF HUMANITIES

MARILYN I. WALKER SCHOOL OF FINE AND PERFORMING ARTS

Our state-of-the-art learning space in downtown St. Catharines is a dynamic hub of creative and intellectual activity in Niagara. Facilities and programming at the Walker School, the adjacent First Ontario Performing Arts Centre and the historic Rodman Hall Art Centre provide exceptional opportunities for creativity and research in unique learning environments.

Whether pursuing a major, minor or elective, you'll fulfil your creative and professional aspirations by participating in exhibitions, performances and concerts. Award-winning faculty, staff and guest artists are passionate about contributing to your understanding of the world through the study of culture and the humanities, and the production of new artistic work.

REHEARSAL &
PERFORMANCE
STUDIOS

two with lighting grids,
one with a production booth and
one with an adjacent wet lab.

Rehearse and perform
in the acoustically excellent

300-SEAT RECITAL HALL.

Dramatic Arts

- **BA in Dramatic Arts**
- **Minor in Dramatic Arts**
- **Certificate in Drama in Education and Applied Theatre**

You'll work with the very best faculty, artists and theatre professionals from Niagara, the GTA and beyond. As part of the core of the degree, you will take courses that integrate theory and practice (praxis). These involve a mix of lectures and studio work that explore ways in which creativity and analysis are linked culturally and historically.

You may choose courses from the following areas of concentration:

Drama in Education and Applied Theatre provides you with the knowledge and skills to use drama in classroom teaching, for social change and for community development.

Performance involves a core series of courses to actualize your potential as a stage actor.

Production and Design prepares you for production work, crewing, design and other elements of technical theatre stagecraft.

All applicants must attend the DART Invitational at Brock for an on-site workshop/admissions event. Visit brocku.ca/dramatic-arts for details.

Career opportunities

- Theatre artist: actor, director, designer, playwright, technician
- Theatre administrator, production and stage management
- Drama therapist, drama for community development
- Teacher
- Writer for cultural industries, including criticism and theory

Music

- **Bachelor of Music (BMus)**
- **BA in Music**
- **Minor in Music**

The Department of Music offers superb performance and academic instruction, pristine facilities in the Walker School and a professional auditorium in the 300-seat Recital Hall at the adjacent FirstOntario Performing Arts Centre. There are a wide range of courses in music history, theory, general musicianship, solo and ensemble performance, composition, conducting, music technology and music education.

The **concentration in Music Education** is the perfect lead into further studies in a Faculty of Education, school teaching, or for teaching privately in a studio setting.

The **Music Therapy Foundations concentration** is a kind of Music Therapy "pre-med," and is excellent preparation for graduate studies and eventual certification in Music Therapy.

The **Music Performance concentration** (BMus only) is for performers of the highest calibre who aspire to go on to graduate studies in performance and an eventual career concertizing. Entry to this concentration is via a juried audition at the end of first year.

Applicants complete aural, keyboard and theory placement tests, and a scheduled interview. Students applying to the Bachelor of Music program, or taking lessons, will also be required to audition on a solo instrument or voice. Visit brocku.ca/music for more information.

Career opportunities

- Performer
- Music teacher
- Composer/arranger
- Music therapist
- Conductor

Studies in Arts and Culture

- **BA in Studies in Arts and Culture**
- **Minor in Studies in Arts and Culture**

Explore and apply the interdisciplinary production of arts and culture.

You'll examine and relate elements of Visual Arts, Dramatic Arts, Music, Dance, Interactive Arts and Science, History, Modern Literatures, Media and Communication Studies, Popular Culture, Film Studies and Canadian Studies. Customize your program and acquire hard and soft skills through experiential learning.

The **concentration in Cultural Management**, with courses from the Goodman School of Business, is ideal for those wishing to work as cultural managers in diverse fields of arts and culture.

A co-operation between Studies in Arts and Culture (STAC), History and Geography/Tourism Studies, the **concentration in Cultural Transmission and Heritage Studies** engages students in cross-disciplinary curatorial projects.

The **concentration in Languages, Arts and Culture** allows you to combine language acquisition (French, German, Italian, Spanish) in the Department of Modern Languages, Literatures and Cultures with interdisciplinary work in arts and culture.

You may also choose to combine your degree in Studies in Arts and Culture with a second area of study.

Service-learning or practicum experiences are available with professionals in the Niagara region.

Career opportunities

- Artistic direction
- Arts, culture and heritage policy development and management
- Cultural programming
- Arts criticism, journalism, publishing
- Museum curation
- Tourism

MORE THAN 45

awards, bursaries, prizes and scholarships
exclusively for MIWSFPA students.

Visual Arts

- **BA in Studio Art**
- **BA in History of Art and Visual Culture**
- **Minor in History of Art and Visual Culture**

In the Department of Visual Arts (VISA), education takes place within well-equipped studios and teaching spaces, as well as in our vibrant local arts community.

We provide education in two distinct but interconnected streams: Studio Art (STDA) and the History of Art and Visual Culture (HAVC).

Studio Art students take courses in all fine art media, such as painting, photography, drawing, digital media, sculpture, performance art and non-traditional methods of expression. A portfolio is required for applicants to Studio Art. Visit brocku.ca/visual-arts for more information.

History of Art and Visual Culture courses explore history as it is connected to the present, with courses on contemporary ideas as well as a focus on themes such as the body in art and visual culture or the role of censorship from the ancient world to the present day. Courses are innovative, interdisciplinary and in keeping with the currencies of contemporary thought.

Our professors are exhibiting artists and published scholars who have mastered a wide array of media and topics, and are fluent in emerging discourses. We offer a well-rounded, exciting education. Want to show your work, curate a show or participate in a festival? How about giving a lecture on your research or travelling to see art in Italy or Greece? All is possible within a degree program in the Department of Visual Arts.

Career opportunities

- Art therapist
- Artist
- Graphic designer
- Curator
- Teacher

FACULTY OF MATHEMATICS AND SCIENCE

We'll provide you with the solid foundation in scientific knowledge and critical thinking that today's employers, graduate schools and professional schools demand.

You'll pursue your studies through practical experiences in labs, co-ops, internships and field trips. We offer small class sizes and the ability to learn alongside award-winning professors using state-of-the-art equipment.

We'll prepare you for a future in medical school, dentistry, graduate studies or countless other opportunities.

Applied Computing

• Minor in Applied Computing

Computers have a presence in almost all workplaces. You can improve your employability by including this minor with your major area of study.

Study multimedia manipulation, computer applications, integrity and literacy in the information age, computer troubleshooting, computer programming, and web design and development. This minor provides all these options without the requirement of university-level mathematics.

Biochemistry

• BSc in Biochemistry

At Brock, our teaching and research labs are combined. This means you'll apply current techniques and technology to biochemical problems using the same state-of-the-art equipment that our professors use for their research.

The program begins with a set of core chemistry, cell biology and molecular biology courses. In Years 3 and 4, you may emphasize either biology or chemistry, choosing from courses in metabolism and energy flow, protein and enzyme action, macromolecular structures, information flow and molecular genetics, and bio-organic and biophysical chemistry.

Career opportunities

- Medicine
- Dentistry
- Pharmaceutical research and marketing
- Research scientist
- Education

Biological Sciences

• BSc in Biological Sciences

• Minor in Biological Sciences

We are ranked highly among undergraduate Canadian universities in medical and science research grants. You'll have access to modern labs and the teaching and research knowledge of professors who have received provincial, national and international acclaim for their work.

Lectures, laboratories and field studies will introduce you to the breadth of Biological Sciences, after which you can design your program from courses in biochemistry; cell biology; developmental biology; animal, plant and microbial physiology; genetics; molecular biology; neurobiology; ecology; animal behaviour and bioinformatics.

Career opportunities

- Medicine or dentistry
- Veterinary medicine
- Chiropractic practice
- Field biologist
- Environmental assessment

Biomedical Sciences

• BSc in Biomedical Sciences

This exciting program is intended for those interested in a career in medicine or biomedical research. The program is offered jointly by the Departments of Biological Sciences and Health Sciences, and is focused on the molecular basis of human health. It draws on the expertise of the Department of Health Sciences in the medical aspects of human health and the Department of

Biological Sciences in the theory, methods and applications of molecular genetics.

You'll be exposed to subjects such as human physiology, anatomy, pharmacology, microbiology, biochemistry and genetics. You'll receive excellent preparation for biomedical research careers in emerging areas such as human genetics and molecular biology.

Career opportunities

- Medicine and allied health professions
- Medical research
- Teaching
- Forensic research
- Pharmaceutical industry

Biophysics

• BSc in Biophysics

Biophysics is the physics of life, of all living systems and their interaction with their surroundings, both natural and artificial. It is a rapidly advancing field encompassing a wide variety of areas in natural and life sciences. Biophysics uses all methods of scientific inquiry — theory, experiment and large-scale computer simulation — to understand living systems at the molecular level.

Biophysics also forms the basis of many aspects of medical physics, another rapidly developing field in much demand right now.

Brock's Biophysics program will provide you with a superb learning environment and exciting research opportunities. Extended research opportunities are available through Brock's participation in the Biophysics Interdepartmental Group (BIG), based at the University of Guelph.

Career opportunities

- Medical and health physicist
- Pharmaceutical industry
- Environmental sciences
- Food and agricultural industries
- Medical laboratory technology

Biotechnology

• BSc in Biotechnology

You'll be on the forefront of research in this exciting and knowledge-based industry.

You'll take courses in biological sciences, chemistry, biochemistry and biotechnology, exploring the use of living organisms to produce goods and services for practical and industrial purposes.

Career opportunities in biotechnology are expanding rapidly due to a dramatic increase in global market demands for biotechnology products. As a modern biotechnologist, you'll study areas such as recombinant DNA technology, genetic and protein engineering, cell fusion, and gene cloning and expression.

Career opportunities

- Medicine or dentistry
- Veterinary medicine
- Teaching
- Patent lawyer
- Research and development

Chemistry

• BSc in Chemistry

• Minor in Chemistry

Finding solutions today for the challenges of tomorrow.

We have some of the most advanced equipment in the field and we let you use it. While other schools often reserve the newest equipment for research only, all of Brock's facilities are used for teaching and research.

Our commitment to hands-on learning makes our graduates especially skilled and adept scientists. You'll be a key partner in our research activities, participating in special research courses and paid summer research. Many of our undergraduate students have co-authored papers before they graduate.

The Chemistry Co-op program allows you to combine academic and work terms and gain valuable experience. Your degree will include three four-month work terms. Please visit brocku.ca/ccee/co-op-education for more information.

Career opportunities

- Pharmaceutical researcher
- Forensic technician
- Teacher
- Environmental researcher
- Patent lawyer
- Physician, dentist, chiropractor, pharmacist

Computer Science

• BSc in Computer Science

We'll prepare you for a career in software technology, an industry that is transforming our world and workplaces. You'll study data structures, operating systems, database systems, industry standard programming languages, software engineering and user interfaces.

You can take specialized courses in object orientation, computer graphics, intelligent systems, computer networks, advanced internet, neural networks, computer music (digital music), parallel computing and compiler construction.

The honours program offers two concentrations:

Software Engineering focuses on programming and systems analysis for application development.

Intelligent Systems focuses on making computers solve problems that normally require human intelligence to solve.

Career opportunities

- Programmer or systems analyst
- Computer graphics developer
- Database or network administrator
- IT project manager or corporate trainer
- Web designer/internet specialist

Computer Science and Mathematics

• BSc in Computer Science and Mathematics

This degree program allows you to combine your interests in mathematics and computer science and provides you with a unique work experience.

The 4.5-year program combines the strengths of our Computer Science program with our Mathematics program, showing you how to apply what you learn in Mathematics by using technology.

Career opportunities

- Research consultant
- Computer graphics developer
- Web designer/internet specialist
- Mathematics teacher
- Applied mathematician

Computing and Business

• Bachelor of Computing and Business (BCB)

Our program provides a unique foundation in business practices for computing professionals. The program begins with core courses in computer programming, basic data structures and computer organization, augmented by courses in accounting, management and economics. In upper years, you'll study databases, advanced data structures, operating systems, computing ethics, entrepreneurship, finance, marketing and organizational behaviour, and software engineering.

Career opportunities

- IT entrepreneur
- IT project manager
- Information systems manager
- IT marketing manager/sales
- Financial systems analyst

Computing and Network Communications

• BSc in Computing and Network Communications

We've teamed up with the School of Applied Computing and Engineering Sciences at Sheridan College to develop a program where you may complete your Brock degree and a three-year diploma in Telecommunications Technology from Sheridan College in just 4.5 years.

The program caters to the demand for professionals with a solid foundation in software development, as well as practical technical skills in system security, telecommunications, network analysis and administration.

You'll spend three terms at Brock studying the foundations of computer science, followed by three terms at Sheridan College studying network communications in a hands-on environment. The final two terms alternate between Brock and Sheridan.

Career opportunities

- Information systems manager
- Programmer/application developer
- Communications systems analyst
- Network architect
- Network security officer

Computing and Solid-State Device Technology

• BSc in Computing and Solid-State Device Technology

This degree prepares you for an exciting career in computer technology by tackling computing from the hardware perspective.

If you like math and physics, love to think, and have an urge to take apart your computer to figure out how it works, this cutting-edge program is right for you. The program emphasizes practical aspects of computing and the use of computer-based and other solid-state electronic devices in control, manufacturing and research.

Career opportunities

- IT hardware engineer
- Automation of manufacturing processes
- IT systems operations analyst
- VoIP (Voice over IP) specialist
- Digital TV technologist

Earth Sciences

• BSc in Earth Sciences • Minor in Earth Sciences

The Earth Sciences program trains geoscientists — scientists who study the Earth and other planets in order to better understand their origin and history. We know the Earth's history reasonably well, and that knowledge has helped us to discover natural resources, such as oil and gas, economic minerals and metals, and to understand phenomena, such as global climate change and volcano and earthquake hazards. The geological knowledge derived

from the Earth also helps us to better understand other solar system bodies. Two of our professors are planetary geologists, including Mariek Schmidt who is a member of NASA's Mars Science Laboratory Project that operates the rover Curiosity as it explores Gale Crater.

Brock's program is designed to comply with the educational requirements for initial registration as a geoscientist-in-training, the licensing classification that leads to the PGeo designation established by the Association of Professional Geoscientists of Ontario.

Career opportunities

- Professional geoscientist (PGeo designation)
- Minerals exploration geologist
- Mining geologist
- Petroleum geologist
- Paleontologist

Engineering Science

• Minor in Engineering Science

Add this minor to any program of study at Brock. We believe engineering is about making life better for everyone and protecting the environment for generations to come.

Engineering Science at Brock is focused on solving real problems with creativity, courage and compassion. Learn the skills it takes to make change possible in areas such as changing climate, global hunger, clean water as a human right, getting plastic out of our oceans and generating 100 per cent renewable energy.

Environmental Geoscience

• BSc in Environmental Geoscience

Environmental geoscientists apply their unique understanding of the Earth's composition, structure and physical processes to protect the environment and predict geologic and hydrologic hazards. New geoscientists, trained in environmental disciplines, are required to meet environmental and resource management challenges. Current trends suggest that in North America employment in the environmental geoscience disciplines will grow faster than the average for other occupations.

Brock's program is designed to comply with the educational requirements for licensing as a geoscientist-in-training, leading to the PGeo designation established by the Association of Professional Geoscientists of Ontario.

Career opportunities

- Hydrologist (PGeo)
- Groundwater geologist (PGeo)
- Environmental geoscientist (PGeo)
- Environmental consultant
- Conservation officer/park warden

NEW FOR 2021

Engineering Science

- Deal with our changing climate
- Address global hunger
- Make clean water a human right
- Get plastic out of the oceans
- Generate 100% renewable energy

Game Programming

• BSc in Game Programming/Advanced Diploma in Game Development

Video games are an increasingly important part of contemporary life and entertainment. The GAME program prepares students to share and even lead in the creation of games — from the programming that makes a game work, to the design and realization of dynamic experiences, and the planning and management of production processes.

GAME is offered concurrently at Brock and Niagara College. The program provides opportunities to explore the game space from every angle. You'll gain a broad understanding of this complex field as you look at game programming, multiple game engines, game platforms, and various design and production paradigms. You'll also examine core issues that surround games, such as play, agency, narrative, dynamics and immersion.

Intensive production courses are offered in Years 2, 3 and 4 of the program. In these courses, you'll work on collaborative teams to create game components, prototypes and fully realized games.

Career opportunities

- Game developer
- Game systems designer
- Gameplay engineer
- User interface developer
- Technical director

Mathematics

• BSc in Mathematics and Statistics • Minors in Mathematics, Elementary Teaching Mathematics, or Secondary Teaching Mathematics

This exciting Mathematics program is flexible, innovative and provides opportunities for students to work with leading researchers to gain academic and employment experience.

Choose from a broad range of courses or concentrations in pure mathematics (development of mathematical ideas and concepts for their own sake), applied mathematics (mathematics for applications in science, engineering, economics or business), statistics (experimental design, sampling methods and data analysis techniques), MICA (mathematics coupled with modern computer software applications) or mathematics education.

For exceptional students, there is also an Accelerated Mathematics Studies stream where you can complete a four-year honours degree in any concentration in as little as three years.

Career opportunities

- Statistician in the private/public sector
- Operations research analyst, quantitative financial market analyst
- Actuary, insurance underwriter
- Inventory control specialist
- Mathematics/statistics teacher, professor or researcher

Neuroscience

• BSc in Neuroscience

Neuroscience is the study of the nervous system and how it generates behaviour in animals and humans. You'll study the link between neural function and behaviour at many levels by using techniques in molecular genetics, biochemistry, cellular physiology, neuroanatomy, electrophysiology, pharmacology, behavioural biology, neuropsychology, cognitive psychology and kinesiology. You'll also assist in active neuroscience laboratory research dealing with humans and non-humans.

Brock has the longest established undergraduate Neuroscience program in Canada. Since 1991, our program has grown and now includes five streams of study: neurobiology, neuropsychology, neurocomputing or neuromotor, and environmental neuroscience.

Career opportunities

- Medical doctor
- Anesthesiologist
- Physical or occupational therapist
- Speech or language pathologist
- Pharmacist

Oenology and Viticulture

- **BSc in Oenology and Viticulture Co-op**
- **Minor in Oenology and Viticulture**
- **Certificate in Grape and Wine Technology**

We'll provide you with a comprehensive education encompassing sensory science, biochemistry, biotechnology, chemistry, microbiology, genetics, molecular biology, plant physiology and cell biology.

Your education will be enhanced by an opportunity to apply what you learn in the lecture hall with hands-on winemaking labs and viticulture fieldwork. Extracurricular lectures and events organized by Brock's internationally renowned **Cool Climate Oenology and Viticulture Institute (brocku.ca/ccovi)** connect you with leading researchers in the field. Industry experience via our co-op program (**brocku.ca/ccee/co-op-education**) will also be an essential part of your education. At least one work term will be in a vineyard setting with another at a winery during harvest time. CCOVI is the only institute of its kind in Canada.

Career opportunities

- Winemaker/winery consultant
- Vineyard manager/consultant
- Winery/vineyard proprietor
- Sensory specialist
- Oenology, viticulture or biotechnology researcher

Physics

- **BSc in Physics**
- **Minor in Physics**

State-of-the-art equipment and internationally recognized faculty and research projects make our department a dynamic and exciting place.

Studies concentrate on various aspects of solid-state and materials research, from superconductors to soft-condensed matter systems. Our undergraduate students are involved in research — some have even published papers before graduation.

Career opportunities

- Physicist
- Laser and optical device technologist
- Space scientist
- Patent law
- Research and development in technology

Sciences

- **Bachelor of Science (BSc)**

Create a custom program for yourself. This program has been designed for individuals wishing to acquire the knowledge and skills necessary to pursue further undergraduate and graduate studies or careers in the sciences in a personalized and flexible way.

You can complete your degree within the program or use it as a foundation to join another program of your choice in the health, life or natural sciences.

It is ideally suited to students who are looking for plenty of choice as they develop their study plan. It could include the specific combination of courses required for admission into graduate or professional studies, or simply courses that best serve your personal goals and aspirations.

Career opportunities

- Dentistry
- Medicine
- Optometry
- Pharmaceutical research and marketing
- Veterinary medicine

FACULTY OF **SOCIAL SCIENCES**

Programs in the Social Sciences will prepare you for any number of career paths, as well as professional or graduate studies in various fields. You'll gain the skills that employers value, including how to think critically and argue persuasively, as well as expertise in methods of research, data analysis and interpretation.

We offer many progressive study options based in traditional social science disciplines and unique interdisciplinary subjects. This allows you to study what you want and to explore the many interests that you have.

Applied Linguistics

- **BA in Applied Linguistics**
- **BA in Hearing Sciences**
- **BA in Speech and Language Sciences**
- **BA in Applied Linguistics/TESL**
- **Minor in Applied Linguistics**
- **Certificates in Hearing Sciences, Speech and Language Sciences or TESL**

Are you interested in how children acquire language, how the skills of second-language speakers develop, how language disorders are diagnosed and treated, or how social factors influence language use or methods of language instruction?

In our programs, you'll gain a strong foundation in linguistics and learn to apply scientific reasoning to language-based problems. You'll engage in case-based projects, clinical observation, teaching practice, and hands-on labs in courses taught by internationally recognized scholars and instructors with practical experience in the field. We offer a choice of majors, including:

Hearing Sciences or Speech and Language Sciences: In these majors, you'll learn about basic science and communication processes, including the anatomy and physiology of speech and hearing, acoustics, linguistics, child language development and selected disorders of human communication. These programs of study provide excellent preparation for students interested in Speech-Language Pathology or Audiology and related professions.

Applied Linguistics/Teaching English as a Subsequent Language (TESL): In this major, you'll study theories and methodologies relevant to learning and teaching English as a subsequent language and engage in

practice teaching. Graduates are eligible for certification with TESL Ontario.

Career opportunities

- Linguist
- Translator
- Speech-language pathologist
- Audiologist
- Clinical researcher

Business Communication

- **BA in Business Communication**
- **BA in Communication Studies/Journalism Diploma (Mohawk College)**
- **BA in Communication Studies/Public Relations Diploma (Mohawk College)**
- **Minors in Media Studies or Digital Culture**

This program aims to equip students with a sound theoretical basis for analyzing and practising communication within the business environment.

You may study how digital technologies impact human communication in our **concentration in Digital Culture**.

This hybrid program includes courses offered through the Goodman School of Business.

Each year, the Terry O'Malley Advertising Lecture is hosted by the Department of Communication, Popular Culture and Film. The Lecture provides students with the opportunity to hear from some of North America's top marketing and business communicators.

Students are also encouraged to participate in the annual Grant Dobson Case Competition to showcase their superior creativity and presentation skills to a panel of industry experts.

Pursue one of our collaborative programs to complete both a degree and a diploma.

Experiential learning opportunities are available through various program courses.

Career opportunities

- Public relations officer
- Advertising professional
- Human resource manager
- Event planner
- Intellectual property, copyright or media law

Business Economics

- **Bachelor of Business Economics (BBE)**

Our Bachelor of Business Economics program is unique in Canada. If you're interested in combining the studies of economics and business, this degree offers you the best opportunity.

With an emphasis on quantitative, communication and analytical skills, you'll be well prepared for a variety of careers in both the public and private sectors of the economy.

After your first two years, you may specialize in one of the following two areas:

Financial Economics combines economics with finance knowledge.

Consumer Economics combines economics with marketing expertise.

Career opportunities

- Financial analyst
- Market researcher
- Public service administrator
- Private sector manager
- Banker

Child and Youth Studies

- **BA in Child and Youth Studies**
- **Minor in Child and Youth Studies**

Learn and think about children, childhood and youth through diverse lenses. Our multidisciplinary program draws on psychology, education, sociology, anthropology, cultural studies and criminology – among other disciplines – to really understand young people and their perspectives. The theoretical and practical training offers an approach to understanding children, childhood and youth that includes diversity, inequality, exceptionalities, families, cultures, social worlds, schools, peers, communities, popular and media culture, and international issues that span the globe. This wide-ranging knowledge base provides opportunities to work with young people in a variety of capacities.

The department has been offering undergraduate degrees since 1993, an MA program since 2000 and a new PhD program since 2016.

Our faculty includes many nationally and internationally recognized scholars who work to high standards for teaching and research. Our staff work closely with them to guide our students through their programs. We are all approachable and dedicated to maintaining the highest quality of education.

Experiential learning opportunities are offered in Years 2, 3 and 4 of the program with a required experiential course in Year 2.

Career opportunities

- Youth worker/mental health counsellor
- Elementary teacher/literacy specialist
- Autism specialist/special needs worker
- Child life specialist
- Children's librarian

Critical Criminology

- **BA in Critical Criminology**
- **Minor in Critical Criminology**

The Honours Critical Criminology degree provides students the opportunity for an extensive examination of whose interests are served by 'law and order' ideologies, policies and practices of social control.

This degree offers a distinct orientation to law making, law breaking, law enforcement and social reaction.

Students will look beyond crime and punishment and explore larger issues of surveillance, criminalization, interpersonal and structural violence, and more. The Honours BA in Critical Criminology will expose students to criminology in the broader context of theories of justice and equity — an important distinction both in the field and in the Faculty of Social Sciences.

Students can expect to graduate equipped with advanced training in theory and methods, as well as applied and practical experience, in order to become leaders in areas such as law, policy, research and data analysis, and public accountability arenas.

Career opportunities

- Lawyer
- Social worker
- Court reporter
- Victim advocate
- Youth worker

Economics

- **BA in Economics**
- **Minor in Economics**

Study the "science of choice" — learning how limited resources can best be used to meet the needs of individuals and society. You'll look at how individual consumers choose to spend their time and money, and how producers predict and respond to consumer needs.

You'll gain an understanding of the economy as a whole, from the banking system, unemployment, government debt and taxation, to international trade and exchange rates, and natural resource use and conservation.

Career opportunities

- Private-sector economist
- Government economist
- Business manager
- Corporate lawyer
- Financial investment planner

Environmental Sustainability

- **Minor in Environmental Sustainability**

Environmental Sustainability seeks to protect the natural environment and ecological health while maintaining or improving the quality of human life. This minor allows students to gain the core skills necessary for problem-solving in the contemporary era, where businesses and governments adhere to new environmental legislation, organizations are concerned with conservation, and society responds to environmental changes.

Students in any discipline may obtain the

minor by completing the required credits with online course options available. With a minor in Environmental Sustainability, you will have the opportunity to study sustainability issues from a transdisciplinary perspective — thinking outside the traditional boundaries of your discipline — and gain practical insight into how Canada and the world are moving forward to address these issues.

Film Studies

- **BA in Film Studies**
- **BA in Film Studies/Advanced Filmmaking Postgraduate Certificate (Fanshawe College)**
- **BA in Film Studies/Broadcast Journalism – Television News Postgraduate Certificate (Fanshawe College)**
- **BA in Film Studies/Broadcast Television – Visual Effect and Editing for Contemporary Media Graduate Certificate (Fanshawe College)**
- **Certificate in Film Studies**
- **Minor in Film Studies**

Brock has the oldest — and one of the most distinguished — film studies programs in Canada. The program focuses on critical and historical courses that examine a variety of approaches to film and related media.

Most courses include weekly film screenings to introduce you to all kinds of cinema. Studying a wide range of films provides a thorough understanding of the medium for future filmmakers, critics and teachers.

There are optional courses in video production, and you may become involved in the Brock University Film Society (BUFS)

and/or BrockTV.

Experiential learning opportunities are available through various program courses.

Career opportunities

- Media research analyst
- Film industry professional
- Media content creator
- Film festival/television programmer
- Film critic

Geography

- **BA or BSc in Geography**
- **Minors in Geography or Urban and Planning Studies**

Study Geography in Niagara — one of the world's most diverse social and natural landscapes.

Geographers look at the world from a unique perspective, one that bridges the social and natural sciences. Our programs are designed to combine theory and practical experience to train you in Human Geography, Physical Geography and Geomatics.

Human Geography (BA) aims to understand the human world and its interaction with physical, built and symbolic landscapes. This knowledge is used to work towards more equitable societies.

Physical Geography (BSc) aims to explain the geographic pattern of weather and climate, landform development and their interactions with the biosphere. This is done by studying processes at the Earth's surface and how they interact with, affect and are affected by human activities.

Geomatics includes scientific and technological activities that integrate various fields, including cartography, remote sensing (including drone technologies) and

geographical information systems (GIS).

A **concentration in Urban and Planning Studies** is also available.

Our department has been blending theory and practice for more than five decades through experiential learning in labs, seminars, field courses, internships and much more.

These experiences have been developed to help you apply what you learn in class outside the classroom walls.

Professors in our programs engage in a broad range of research activities and incorporate interactive elements into their courses. This often includes spending time outside of the classroom around campus and across Niagara.

Our goal is to prepare you for life after university, whether that be a career or further studies in Canada or abroad. The world is your classroom.

Career opportunities

- Climatologist
- Community development officer
- GIS technician
- Teacher
- Urban or rural planner

International Political Economy

- **BA in International Political Economy**

Combine your studies and blend the analytical tools of Economics with Political Science's knowledge of governments and international institutions.

Economic forces drive many vital international issues such as trade, development, globalized investment and production. The key actors are governments

and international institutions such as the World Trade Organization and the International Monetary Fund. Economic analysis investigates prices, tradeoffs and opportunity costs.

International political analysis examines interests, rules and incentives. Issues studied include how economic activity and wealth are distributed, and the effect of governments on these.

Career opportunities

- International business
- Foreign service agent
- Diplomat
- Journalist
- Public servant

Labour Studies

- **BA in Labour Studies**
- **BA in Labour Studies with co-major/Contemporary Labour Perspectives Certificate (George Brown School of Labour) and a Post-Graduate Human Resources Management Certificate (George Brown College)**
- **Concentration in Labour Studies**
- **Minor in Labour Studies**
- **Certificate in Labour Studies**

Those who understand the shifting world of work are best positioned to not only successfully navigate it, but also to improve jobs and workers' lives. Labour Studies makes that possible.

A useful mix of thought-provoking and skill-building classes will prepare you for a wide range of careers in labour and employment relations, human resources, workplace education and training, public policy and administration, and social justice

and advocacy. Work is in your future — get the edge now.

You may pursue a Labour Studies degree or certificate, choose the co-op pathway for extra job preparation or benefit from a combined major in Labour Studies and Political Science, Sociology, History, Geography, Economics, English, or Women's and Gender Studies — or any other Brock program that allows co-majors.

Labour studies students study work from many angles. We are home to popular courses including Labour of Sport, Labour and Employment Law, Animals at Work, and our simulation-based Collective Bargaining course.

Career opportunities

- Labour lawyer or mediator
- Human resources manager
- Labour relations specialist
- Journalist
- Public policy analyst

Media and Communications Studies

- **BA in Media and Communication Studies**
- **BA in Communication Studies/Journalism Diploma (Mohawk College)**
- **BA in Communication Studies/Public Relations Diploma (Mohawk College)**
- **Minors in Media Studies, Digital Culture or Popular Culture**

The Media and Communication Studies program focuses on how people communicate, ways that social structures affect communication and how new technologies are changing human communications.

Learn about the impact of media and

communication in the creation of meaning, identity and social change.

This program emphasizes the study of media content, audiences and institutions in their political, economic and social contexts in Canada and elsewhere.

You may also study how digital technologies impact human communication in our **concentration in Digital Culture**.

Experiential learning opportunities are available through various program courses.

Career opportunities

- Director of communications
- Public relations officer
- Journalist
- Media consultant
- Intellectual property, copyright and media law

Political Science

- **BA in Political Science**
- **BA in Political Science/Paralegal Diploma (Seneca College)**
- **Concentration in Public Law**
- **Minors in Political Science, Canadian Politics, Political Theory, Comparative Politics, International Relations, Public Policy and Administration**
- **Certificates in Public Administration or Public Law**

Our program looks at five key areas. In Canadian Politics, Comparative Politics and International Relations, you'll examine power relationships and the organization of power within and among states. The study of Public Policy asks how policies are made and implemented in the complex machinery of government. Political Theory/Philosophy asks how power ought to be organized and to what end.

The **concentration in Public Law** is a superb pre-law program for those intending to pursue a legal career.

The co-op in **Public Administration** is designed for those who seek employment in the federal, provincial or municipal levels of government. The co-op in Political Science is designed for those with broader interests in subfields such as political theory and international relations.

Career opportunities

- Lawyer
- Government administrator
- Journalist
- Diplomat, international affairs specialist
- Polling and political consultant

Popular Culture

- **BA in Popular Culture**
- **BA in Popular Culture/Journalism Diploma (Mohawk College)**
- **Minors in Media Studies, Digital Culture or Popular Culture**

This program explores issues in popular culture from a multidisciplinary perspective. You'll take a series of critical courses that examine a wide range of mass - mediated and non-mass-mediated forms of popular culture. These include television, popular music, gaming, advertising, social media, sports, fairs and carnivals, literature, and film in their political, historical, economic and aesthetic contexts.

Courses in communication, film, Canadian studies and politics will give you an excellent understanding of the world of popular forms, both contemporary and historical.

Experiential learning opportunities are available through various program courses.

Career opportunities

- Journalist
- Public relations officer
- Social media co-ordinator
- Market research analyst
- Cultural events planner

Psychology

- **BA in Psychology**
- **Minor in Psychology**

Psychology is the scientific study of human behaviour, and the program at Brock offers a diverse approach to this exciting field of study.

We offer courses that are relevant to a wide range of career paths, including child and adult development, forensics, clinical work, and studies in personality, group dynamics and neuropsychology.

Through lectures, seminars, labs and one-on-one mentoring, students can gain expertise in human behaviour and job - related skills, such as critical thinking, teamwork, communication, problem-solving, project management, research design and data analysis. Our department also provides specific courses that will help you with career preparation (e.g. job-search and interviewing skills), as well as a wealth of opportunities to learn outside of the classroom. Engaging in co-op work terms, participating in the Psych Society, working as a teaching assistant in introductory courses or becoming an intern in one of our internationally renowned laboratories will enrich your studies and help you to launch your career.

Career opportunities

- Business (human resources; sales and marketing; data analytics)
- Health care (research; psychological

- assessment; counselling; social work)
- Education (teaching; early childhood education)
- Law enforcement (police and parole officers; forensics)
- Research and innovation (data management; neuroscience)

Social Sciences

- **BA in Social Sciences**

Our BA in Social Sciences degree is designed to allow you to pursue a more flexible pattern of study than a single or combined major.

The BA in Social Sciences program offers broad exposure to courses from across all of our Faculties. The majority of credits earned towards this degree must be offered by departments and centres within the Faculty of Social Sciences.

Students who enter Brock in the BA Social Sciences program may apply to major in a discipline of their choosing after successfully completing Year 1.

Completion of the BA Social Sciences degree may lead to employment opportunities in a wide range of areas, depending on the specific courses that are chosen.

Sociology

- **BA in Sociology**
- **Minors in Africana Studies, Critical Animal Studies or Sociology**

Sociology as a discipline challenges everyday assumptions about the world in which we live. Sociologists turn 'common sense' ideas on their head through critical examination of social institutions, relationships and conditions shaping the world and the experiences of individuals.

Sociology students are encouraged to develop and employ their sociological imagination to examine the complex social world, relationships and the human condition.

Three degree streams are available as single majors or combined majors between Sociology and other disciplines.

Our honours program allows for optional concentrations in Applied Social Research and Data Analysis, Critical Animal Studies or Criminology.

Applied Social Research and Data Analysis offers advanced training in both quantitative and qualitative social research design, helping students to package their methodological expertise for a wide variety of research-oriented career paths.

Critical Animal Studies provides an analysis of the role and treatment of animals in society from the perspectives of animal justice, inequality and speciesism.

Criminology offers a critical analysis of the criminal justice system and examines sources of inequality in law, corrections and punishment.

Minors may be pursued by non-Sociology majors in Africana Studies, Sociology or Critical Animal Studies.

Career opportunities

- Policy/data analyst, researcher
- Human and animal rights advocacy, union organizer
- Counsellor, life coach, social services programs
- Immigration, customs, corrections, law
- International relations and development

Tourism Studies

- **BA in Tourism and Environment**
- **BA in Tourism and Environment with stream in Tourism Management**
- **Minor in Tourism Studies**

Study tourism in Niagara — one of the world's premier travel destinations and home to a UNESCO Biosphere Reserve.

Our program is designed to meet the needs of a rapidly evolving industry, incorporating principles of sustainability (economic, environmental, social and political) in tourism management and planning.

Within the Department of Geography and Tourism Studies, our program examines such questions as: Can we balance the economic benefits of tourism with the negative consequences of pollution, loss of biodiversity, economic inequality and unsuitable cultural change?

Allied with the Goodman School of Business, the **Tourism Management** stream offers a range of business-related courses.

You may take advantage of our international field courses, exchange programs, co-op options and internship opportunities with industry leaders, such as Disney, to explore tourism issues in diverse destinations worldwide.

Career opportunities

- Heritage interpreter
- Hotel and resort manager
- Nature-based tourism guide
- Tourism policy analyst and planner
- Tourism marketer

Women's and Gender Studies

- **BA in Women's and Gender Studies**
- **Minor in Women's and Gender Studies**
- **Certificate in Women's and Gender Studies**

You'll examine how social constructions of gender shape the consciousness and lives of women and men of various races, ethnicities, classes and sexualities. You'll explore diverse women's histories, intellectual contributions and perspectives.

Employing methodological tools from a wide range of disciplines, you'll scrutinize gender in relation to institutions, ideologies, histories, cultural artifacts, social interactions, science, bodies and cultures.

Our focus is on the transnational feminist exploration of the ways gender intersects with different variables to produce the complexity of women's and men's lived experience. Our courses are open to all students at Brock University, allowing students to explore the ways gendered experience is produced as a culturally variable and historically contingent category.

Career opportunities

- Family lawyer
- Social worker
- Family doctor
- Director of women's organizations
- Human rights worker

Brock's immersive and engaging graduate programs help students to become well-rounded, creative and ethical researchers who will contribute to the betterment of society.

FACULTY OF GRADUATE STUDIES

At Brock University, a combination of dedicated researchers, award-winning faculty and outstanding facilities provide an enriched environment for the pursuit of your graduate degree. The transdisciplinary nature of our graduate programs allows for outstanding collaborations between graduate students and faculty.

With more than 50 programs, there is something for everyone at Brock. We offer an array of specializations, co-op opportunities and study options, such as research-based, course-based and professional programs.

LIVE YOUR BEST LIFE. CAMPUS LIVING

Live in one of Brock's convenient and welcoming residences, meet new friends and become part of our vibrant community. Residences at Brock are home to almost 2,800 students. Each of our residences has a distinct style and unique sense of community.

Our residence guarantee*

Brock is pleased to guarantee a space in residence to all new full-time undergraduate students beginning in Fall 2021, who meet our residence application conditions. A full summary of conditions and criteria may be found at brocku.ca/residence prior to the application opening. The residence guarantee applies only if both the residence application and fee are received by June 1, 2021.

**Brock has historically accommodated all incoming students who met our published residence guarantee. This is our goal for Fall 2021, however; given these uncertain times, we may be required to adjust the guarantee criteria. We commit to updated our applicants as changes are made and we encourage you to visit brocku.ca/residence for the most up-to-date information.*

Off-campus living

Find the perfect place through Brock's Off-Campus Living office. There are many affordable housing options within close proximity to Brock's campus. Find up-to-date listings about a wide variety of accommodations at brocku.ca/ocl. Our Engagement Communities will help you to build your community at Brock and will connect you to resources. With a universal bus pass (U-pass included in your student fees), you'll have no problem getting to campus.

MEAL PLANS

Healthy choices, traditional favourites and familiar brands like Tim Hortons, Starbucks, Pita Pit and Pizza Pizza. With seven unique locations across campus, dining with your meal plan offers convenience, variety, home comforts and on-the-go meals.

Students living in residence will purchase a meal plan. Options are based on your assigned residence. Students living in Brock Suites or off campus may also purchase a full or partial meal plan. Each meal plan includes a combination of meal plan, dining and flex dollars that can be spent using your Brock Card.

MEAL PLAN COSTS*

5-Day All-Access	\$4,800
7-Day All-Access.....	\$5,100
Townhouse.....	\$3,750
Townhouse Plus	\$4,500

FLEX DOLLARS

All students living in residence will purchase flex dollars with their meal plans — a no-worry alternative to carrying cash. Flex dollars may be used in residence laundry facilities, food locations outside of residence and popular off-campus food venues. Any student may purchase flex dollars, and additional flex dollars may be added at any time.

Learn more at
brocku.ca/dining-services

*A Capital Investment Fund fee is included within meal plan costs. All fees are based on 2020-21 pricing and are subject to change. Please note that not all meal plan options or residence styles (double rooms) were available in 2020-21 due to the pandemic.

PROGRAMS & SUPPORT

You come first at Brock. We'll make outstanding service something you encounter every day. We offer programs to assist you in making a smooth transition to Brock, and to ensure that you have positive experiences socially, personally and academically.

START YOUR EXPERIENCE EARLY.

Our summer orientation programs will help you to successfully transition to life at Brock.

Smart Start

Your first day as a Brock student.

We've designed our Smart Start program to support your transition to Brock and to help you make important connections with the University community. Participate in our academic orientation program to prepare for September. You'll learn more about various student supports and services, have your schedule reviewed by an advisor, and get your Brock ID card.

LEAP

Experience community.

Get a first-hand look at our campus — in a small group with other new students — through the lens of our experienced student leaders and mentors. Spend the night in residence, participate in skill-building workshops and help out a local community partner during a service-learning volunteer opportunity.

BaseCamp

Start with an adventure.

Embark on a truly Canadian experience with a group of fellow new Badgers. Explore the beautiful outdoors, camp together and feel confident about yourself going into your first year at Brock.

GET WHERE YOU WANT TO GO. APPLYING TO BROCK

Step 1: Select a program

After exploring your options at Brock, select the program area you wish to pursue.

Applying to multiple Brock programs?

Please note: you can expect to receive and hold an offer of admission to only one Brock program at a time. When more than one Brock program is indicated on the application, the highest choice listed for Brock will be considered first. If you are not eligible for your first choice, we will consider your subsequent choices (in the order of preference you have indicated). If you apply to only one Brock program and do not qualify, in most cases consideration will be given for an alternate and related program.

If you apply for but are not admitted to a co-op program, you will be considered automatically for the regular non-co-op program (if you have **not** included a second choice on the application).

Step 2: Review admission criteria

Admission information will vary depending on what type of applicant you are.

Ontario secondary school applicants should refer to the admission chart found on pages 92 to 97 for specific criteria required for each program. Your six highest 4U or 4M grades, including prerequisite subjects, will be included in the calculation of your final admission average.

All other applicants should use this information as a guideline to determine the prerequisite courses for each program. Equivalent courses may be considered. Refer to the following pages in this book for additional information related to your specific applicant type. Visit brocku.ca/admissions/requirements for more information.

Step 3: Choose your application

Most students applying to Brock will apply via the Ontario Universities' Application Centre (OUAC) at ouac.on.ca

APPLICANT TYPE	APPLICATION & DEADLINES	
	FALL ENROLMENT	WINTER ENROLMENT**
Current Ontario secondary school applicants	ouac.on.ca 101 form Jan. 15	brocku.ca/admissions/apply Brock application December 1
Canadian applicants outside of Ontario	ouac.on.ca 105 D form June 1	brocku.ca/admissions/apply Brock application December 1
Canadian university/college graduates or transfer applicants	ouac.on.ca 105 D form June 1*	brocku.ca/admissions/apply Brock application December 1
Ontario secondary school graduates	ouac.on.ca 105 D form June 1*	brocku.ca/admissions/apply Brock application December 1
International applicants	ouac.on.ca 105 F form or Brock application brocku.ca/admissions/apply April 1*	brocku.ca/admissions/apply Brock application December 1
Part-time applicants	brocku.ca/admissions/apply Brock part-time application August	brocku.ca/admissions/apply Brock part-time application December 1
Mature applicants	brocku.ca/admissions/apply Brock part-time application August	brocku.ca/admissions/apply Brock part-time application December 1

*Nursing application closes Jan. 15, 2021

**Not all programs are available to begin in Winter. Please visit brocku.ca/admissions/apply for details.

Please note that an additional application is required to stay in residence at Brock. Learn more on page 76.

English language requirements

If your first language is not English, you must prove your proficiency with one of the following:

5
Minimum level

Brock Intensive English Language Program
brocku.ca/esl-services

6.5
Overall score

IELTS*
International English Language Testing System
No band below 6.0

88
Overall

TOEFL IBT*
Test of English as a Foreign Language
Minimum of 21 on speaking and writing

70
Minimum score

CAEL
Canadian Academic English Language Assessment
No score under 60

176
Minimum score

CAE
A1 Advanced or C2 Proficiency

600
Minimum overall score

Brock English Placement Test (BEPT)
No subtest below 400

Diploma

International Baccalaureate (IB) Diploma
Where English was the language of instruction

3
Years of study

Full-time study where the primary language of instruction and evaluation is English
With acceptable grades in English and other humanities/social science secondary school courses

In addition to one of these, you must also complete ENG4U (or equivalent) if it is required for your program. Brock University reserves the right to request more information regarding English proficiency test score results. You may be required to sit for an additional language test at the University's discretion.

*Please note higher test scores are required for Accounting Co-op. Visit brocku.ca/admissions/english-proficiency for details.

International applicants

There are varying curriculums around the world. Visit brocku.ca/admissions/international/requirements to determine minimum entry requirements and specific prerequisites. Your academic preparation, English language proficiency (see above) and other factors will determine how you apply to Brock. Please visit brocku.ca/admissions/apply/#international for detailed information.

Applicants with a specialized curriculum

International Baccalaureate diploma

If you've been granted the IB diploma, you will be considered for admission and may receive up to 3.0 transfer credits on the basis of higher-level subjects completed with a grade of five or better.

Advanced Placement program

Advanced Placement courses may be used to determine your admissibility and the granting of transfer credits or exemption. If you have completed Advanced Placement courses with an examination grade of four, you may be eligible to receive a maximum of 2.0 Brock credits. An official AP transcript is required for evaluation.

General Certificate of Secondary Education (GCSE)

Applicants will be considered for admission with the completion of five GCE/GCSE/IGCSE subjects with at least two at A-Level (GCSE grades at C or above). One GCSE/IGCSE/O-Level subject (grade C or above) and 4 AS-Level subjects will be considered, provided the AS-levels do not duplicate subject matter at the GCSE/IGCSE or O-Level. In consultation with the appropriate academic department, the Office of the Registrar will consider transfer credit for those A-Level courses passed with a grade of 'C' or better to a maximum of three credits. Transfer credit will not be considered for courses completed to AS-Level.

Part-time applicants

Planning to apply to Brock on a part-time basis for the Fall, Winter or Spring terms? Please visit brocku.ca/admissions/apply to apply on our Brock application form. Verify with futurestudent@brocku.ca that classes related to your intended program of study are offered during your desired session.

Mature applicants

This special category is used to admit students who are not eligible for admission in any other admissions category, who are at least 21 years old, and have no post-secondary school record. If selected for admission, you are initially limited to part-time study in a General Studies program. Please visit brocku.ca/admissions/other for more information.

ADMISSION CRITERIA

CANADIAN SECONDARY SCHOOL APPLICANTS (OUTSIDE OF ONTARIO)

Brock welcomes students from across Canada. Please refer to the information on pages 92 to 97 as a guideline to determine the types of prerequisite courses that may be required for each program. A background in these specific subjects will provide the best preparation for your chosen field. The information below represents the minimum academic requirements necessary to apply to an undergraduate program at Brock University. Please note: all courses must be completed through a school that is inspected and approved by the appropriate ministry of education. Please contact futurestudent@brocku.ca for questions regarding acceptable academic courses.

Alberta, Northwest Territories, Nunavut

High school diploma with a minimum of five academic Grade 12 courses, including program-specific prerequisite courses numbered 30 or 31.

Note: Physical Education 30 and Career and Technology Studies courses are not acceptable academic courses.

Ontario Grade 12 courses	Alberta, NWT and Nunavut equivalent
ENG4U - English	English Language Arts 30-1
MHF4U - Advanced Functions	Mathematics 30
MCV4U - Calculus and Vectors	Mathematics 31 or Calculus AP
MDM4U - Data Management	Mathematics 30-2
SBI4U - Biology	Biology 30
SCH4U - Chemistry	Chemistry 30
SPH4U - Physics	Physics 30
FEF4U, FIF4U or FSF4U - French	French 30

British Columbia, Yukon

High school diploma with a minimum of four academic Grade 12 courses.

Ontario Grade 12 courses	British Columbia and Yukon equivalent
ENG4U - English	English 12 or English 12: First Peoples
MHF4U - Advanced Functions	Pre-Calculus 12
MCV4U - Calculus and Vectors	Calculus 12 or AP Calculus
SBI4U - Biology	Biology 12
SCH4U - Chemistry	Chemistry 12
SPH4U - Physics	Physics 12
FEF4U, FIF4U or FSF4U - French	French 12

New Brunswick

High school diploma with a minimum of six Grade 12 academic courses at the 120, 121 or 122 levels.

Ontario Grade 12 courses	New Brunswick equivalent
ENG4U - English	English 121 or 122
MHF4U - Advanced Functions	Pre-Calculus 120A and 120B
MCV4U - Calculus and Vectors	Calculus 120
MDM4U - Data Management	Foundations of Mathematics 120
SBI4U - Biology	Biology 121 or 122
SCH4U - Chemistry	Chemistry 121 or 122
SPH4U - Physics	Physics 121 or 122
FEF4U, FIF4U or FSF4U - French	French 120, 121 or 122

Newfoundland/Labrador

High school diploma with a minimum of six academic courses (two-credit value) at the 3000 level, including program-specific prerequisites.

Notes: Physical Education may not be used as one of the six academic courses. If you complete Mathematics 3208 with an average of 80 per cent, you may be eligible for university transfer credit.

Ontario Grade 12 courses	Newfoundland & Labrador equivalent
ENG4U - English	English 3101 or 3201
MHF4U - Advanced Functions	Advanced Mathematics 3204 or 3205
MCV4U - Calculus and Vectors	Mathematics 3207, or 3208*, or AP Calculus *Those who complete the course with 80% or above are eligible for one university level half-credit
SBI4U - Biology	Biology 3201
No equivalent	Advanced Mathematics 3200 or Mathematics 3201 (can be used to meet math requirement for any program that does not require one of the mathematics courses above)
SCH4U - Chemistry	Chemistry 3202
SPH4U - Physics	Physics 3204
FEF4U, FIF4U or FSF4U - French	French 3200, 3201 or 3203, Français 3202 or 3230

Manitoba

High school diploma with a minimum of five 40S-level credits that cover a minimum of three different subject areas.

Note: Grade 12 Physical Education/Health Education cannot be counted toward the five 40S-level credits.

Ontario Grade 12 courses	Manitoba equivalent
ENG4U - English	English 40S (comprehensive or literary or transactional focus)
MHF4U - Advanced Functions	Pre-Calculus Mathematics 40S
MCV4U - Calculus and Vectors	Calculus 45A or Calculus 45S or AP Calculus
No equivalent	Applied mathematics 40S (can be used to meet math requirement for any program that does not require one of the mathematics courses above)
SBI4U - Biology	Biology 40S
SCH4U - Chemistry	Chemistry 40S
SPH4U - Physics	Physics 40S
FEF4U, FIF4U or FSF4U - French	French 40S

Nova Scotia

High school diploma with a minimum of five Grade 12 academic or advanced courses.

Ontario Grade 12 courses	Nova Scotia equivalent
ENG4U - English	English 12
MHF4U - Advanced Functions	Advanced Mathematics 12 or Pre-Calculus
MCV4U - Calculus and Vectors	Calculus 12
MDM4U - Data Management	Academic Math 12 (can be used to meet math requirement for any program that does not require one of the mathematics courses above)
SBI4U - Biology	Biology 12
SCH4U - Chemistry	Chemistry 12
SPH4U - Physics	Physics 12
FEF4U, FIF4U or FSF4U - French	French 12

For more information regarding acceptable courses from your province, please visit brocku.ca/admissions/undergraduate/out-of-province or contact futurestudent@brocku.ca

Prince Edward Island

High school diploma with a minimum of five academic courses at the Grade 12 (621 or 611) level including program-specific prerequisites.

Ontario Grade 12 courses	Prince Edward Island equivalent
ENG4U - English	English 611 or 621A
MHF4U - Advanced Functions	Mathematics 621B
MCV4U - Calculus and Vectors	Mathematics 611B
No equivalent	Mathematics 621A (can be used to meet math requirement for any program that does not require one of the mathematics courses above)
SBI4U - Biology	Biology 621A
SCH4U - Chemistry	Chemistry 611A or 621A
SPH4U - Physics	Physics 621A
FEF4U, FIF4U or FSF4U - French	Core French 621A, or French Immersion 621F

Saskatchewan

High school diploma with a minimum of five Grade 12 (30) level academic courses.

Ontario Grade 12 courses	Saskatchewan equivalent
ENG4U - English	English 30A and 30B
MHF4U - Advanced Functions	Pre-Calculus 30
MCV4U - Calculus and Vectors	Calculus 30
SBI4U - Biology	Biology 30
SCH4U - Chemistry	Chemistry 30
SPH4U - Physics	Physics 30

Quebec

High school diploma with a minimum of six Grade 12 academic courses. If you are applying from a Quebec secondary school that follows the Ontario curriculum, please refer to Ontario admission information.

Ontario Grade 12 courses	Quebec Grade 12 equivalent
ENG4U - English	Grade 12 English
MHF4U - Advanced Functions	Grade 12 Algebra and Geometry
MCV4U - Calculus and Vectors	Grade 12 Calculus
SBI4U - Biology	Grade 12 Biology
SCH4U - Chemistry	Grade 12 Chemistry
SPH4U - Physics	Grade 12 Physics

Quebec CEGEP

If you are applying after one year of CEGEP, you must present a minimum of 12 academic courses, including prerequisite subjects.

Note: Courses in Preparatory English or English as a Second Language are not acceptable for admission to Brock University.

Ontario Grade 12 courses	CEGEP equivalent
ENG4U - English	Two from English 603 series or 604 series
MHF4U - Advanced Functions	Mathematics NYC
MCV4U - Calculus and Vectors	Mathematics NYA (NYB recommended)
SBI4U - Biology	Biology NYA and BZE
SCH4U - Chemistry	Chemistry NYA and NYB
SPH4U - Physics	Physics NYA and one of NYB or NYC

ACCESSIBILITY & INCLUSION

Brock prioritizes disability and accessibility as human rights issues. An inclusive lens is used to create and redevelop environments for all people to learn, work, lead and enjoy.

brocku.ca/accessibility

ADMISSION CRITERIA

TRANSFER APPLICANTS

Transfer credits

Brock grants transfer credits, where possible, to recognize the work you've completed at another institution. When you apply, we will automatically evaluate your application for transfer credits if you've attended another accredited post-secondary institution in the past. As a transfer applicant, you may apply partway through studies at your current post-secondary institution or after you have completed your program at your current post-secondary institution. Your previous educational experience will be evaluated based on the following criteria:

- Applicability of your previous program to your chosen Brock program.
- Your academic achievement.
- Completion of prerequisite courses (if applicable).

You'll be notified of the transfer credits awarded to you through your Statement of Advanced Standing on your student portal at my.brocku.ca

Co-op

Transfer students will receive a maximum of 5.0 transfer credits when admitted to a co-op program.

Concurrent Education

Transfer students will receive a maximum of 4.0 transfer credits when admitted to a concurrent education program.

Goodman School of Business

Transfer credit will only be granted for those courses completed within five years of beginning studies at Brock.

Course code legend

ADA4M – Dramatic Arts
ASM4M – Media Arts
AMU4M – Music
AVI4M – Visual Arts
ENG4U – English
FSF4U – Core French
FEF4U – Extended French
FIF4U – French Immersion
ICS4U – Computer and Information Science
SBI4U – Biology
SCH4U – Chemistry
MDM4U – Data Management
MHF4U – Advanced Functions
MCV4U – Calculus and Vectors
PSE4U – Exercise Science
PSK4U – Introductory Kinesiology
SPH4U – Physics
SNC4M – Science
SES4U – Earth and Space Science

General academic requirements

Entry credential	Minimum admission average*	Notes
One-year certificate	B	
Two-year diploma	B-	For information on applicable transfer credits, visit brocku.ca/admissions/transfer-students
Three-year diploma	B-	
One-year graduate certificate	B-	
Degree	C-	Transfer credits are determined on a case-by-case basis. Normally this credential will warrant more transfer credits than any other credential.

*Admission is not guaranteed by the attainment of the minimum requirements. Some programs may require higher averages.

On-the-spot admissions

Are you applying only to Brock from another Ontario college or university? Take advantage of our on-the-spot admission assessments. Visit brocku.ca/discover/appointments to request a virtual admissions assessment or to learn about on-campus assessment opportunities.

Please provide:

- Photo ID
- High school transcript
- College/university transcript(s)
- \$130 for full-time studies or \$55 for part-time studies. We accept credit card only.

Learn more at

brocku.ca/discover/transfer-students

Submit your documents

You are responsible for submitting official secondary and post-secondary transcripts. Official transcripts must be signed and sealed by the issuing institution, or sent directly from the institution to:

Office of the Registrar – Admissions
Brock University
1812 Sir Isaac Brock Way
St. Catharines, ON L2S 3A1

Other information such as resumés, proof of citizenship and proof of registration can be uploaded via your applicant portal at my.brocku.ca

Pathways and agreements

Brock has outlined a specific transfer process with several institutions within and outside of Ontario. Programs with a formal pathway or agreement can earn you up to 10.0 transfer credits; equal to two academic years of study.

Visit brocku.ca/admissions/agreements for information on pathways and agreements associated with the Brock programs below. As Brock continues to collaborate with more institutions, we encourage you to visit our website for the most up-to-date information.

- Business Administration
- Business Communication
- Certificate in Grape and Wine Technology
- Chemistry
- Child and Youth Studies
- Community Health
- Computer Science
- Computing and Network Communications Co-op
- Dramatic Arts
- Early Childhood Education
- Film Studies
- Game Design
- Game Programming
- Geography

- Women’s and Gender Studies

FLEXIBLE STUDY OPTIONS

ACCELERATED COURSES, ONLINE OPTIONS, AND SPRING AND SUMMER TERMS WILL HELP YOU TO GET AHEAD OR WORK AROUND OTHER COMMITMENTS.

ADVANCE YOUR CAREER

RETURN TO SCHOOL TO ADVANCE YOUR CAREER WITH A FIRST OR SECOND DEGREE, A CERTIFICATE, OR A GRADUATE STUDIES PROGRAM.

ADMISSION CRITERIA

ONTARIO SECONDARY SCHOOL APPLICANTS

Reading the admissions chart

OUAC code: The program code you will place on your application at ouac.on.ca

Programs and degrees: The name of the program and the degree conferred upon graduation.

Co-op: Indicates if co-op is available.

Required Grade 12 subjects: These courses will be included in the calculation of your admission average.

Recommended courses: These courses are NOT required for admission, but may be beneficial in preparing for program content. No admissions preference will be given to students with these courses.

Expected admissions average: These ranges are based on admission averages from previous years. Exact cut-offs for 2021 entry will be determined according to program availability and the quality and quantity of applications received. Achieving the minimum percentage listed does not guarantee admission.

FACULTY OF APPLIED HEALTH SCIENCES

OUAC code	Programs and degrees	Co-op	Required Grade 12 subjects	Recommended subjects (not required for entry)	Competitive admission average 2021
BHL	Child Health (BCH)		ENG4U, SBI4U	One 3U math	mid 70s
BAH	Community Health (BA)		ENG4U, one of SBI4U or SCH4U	SNC4M or one of PSE4U or PSK4U, 3U math	mid 70s
BKM	Kinesiology (BKin) and Master of Professional Kinesiology (MPK)		ENG4U, SBI4U, one 4U math (MHF4U preferred)	PSE4U or PSK4U, MHF4U	high 80s
BPK	Kinesiology (BKin)		ENG4U, SBI4U, one 4U math (MHF4U preferred)	PSE4U or PSK4U, MHF4U	mid 70s

NOVEMBER 2020

BROCK VIRTUAL FALL PREVIEW

Explore all that Brock has to offer through our virtual event. The event will launch on Nov. 9 and will be available all month for you to experience Brock from anywhere! Register at brocku.ca/discover as the date approaches.

NOVEMBER 2020 TO MAY 2021

Offers of admission, entrance scholarship offers and co-op offers are sent to Ontario secondary school applicants.

JANUARY 15, 2021

Deadline for Ontario secondary school students to submit their 101 applications for Fall 2021 entry to Brock via the Ontario Universities' Application Centre at ouac.on.ca

Students living in other Canadian provinces should attempt to submit their applications around the same time.

JANUARY 2021

The earliest date students living outside of Ontario (Canadian and international) can expect an offer of admission from Brock for September 2021. Don't forget to respond by the dates specified in your offer.
